SRINATH V.V

24-14B MUNIYAPPAN NAGAR 2 ND STREET CAUVERY R S PO
KUMARAPALAYAM TK NAMAKKAL DT TN 638007
8428160610 | srinathvv27@gmail.com

Objective

To obtain a challenging software engineering role where I can utilize my programming skills and experience to contribute to innovative projects

Experience

- **ANDAVAR LATHE WORKS**
  17/10/2022 - 03/03/2023
  Designer

- **Space Air Protech Private Limited (HVAC MEP Contractor Company)**
  21/04/2026 - PRESENT
  Site Engineer

Education

Course / Degree	School / University	Grade / Score	Year
10th	GOVERNMENT BOYS HIGHER SECONDARY SCHOOL	44%	2019
DIPLOMA MECHANICAL ENGINEERING	EXCEL POLYTECHNIC COLLEGE	76%	2022
B.E - MECHANICAL ENGINEERING	SENGUNTHAR ENGINEERING COLLEGE	7.89	2026

Skills

- AutoCAD
- Solidwork
- Catia
- Ansys

Projects

- **Design and fabrication of gear hobbing machine**

  Develop a virtual model of the machine to analyze its geometry and simulate the gear hobbing process. This helps in determining optimal process parameters and identifying potential issues.
- **Autonomous vehicle navigation using sensors and arduino**

  An Arduino is used as the central control unit in small-scale autonomous vehicle projects, processing data from navigation sensors like ultrasonic and infrared (IR) to control the vehicle's movement.

  The Arduino reads sensor inputs to detect obstacles or follow lines and then sends commands to a motor driver to steer the vehicle, allowing it to make real-time decisions such as stopping, turning, or moving forward.

Languages

- Tamil
- English

Area Of Interest

- Automative system
- CAD Design
- Thermal Engineering
- Manufacturing Technology
- Quality

Certifications

- Essential of English Communication -Times Pro

- Basics of Wealth Management -TCS
- MATLAB Course
- Autocad
- Solid works
- Catia

Hobby

- Reading books
- Watching movie and web series
- Cooking
- Music
