Kongunadu College Of Engineering And Technology 2023-2027

(6.82)

SOFT SKILLS

- Creativity
- Leadership
- Critical Thinking

TECHNICAL SKILLS

- Java Programming
- IoT
- PCB Design

LANGUAGE

- Tamil
- English

OBJECTIVE

An individual with good communication skills and basic technical knowledge, showing strong learning interest and eagerness to learn new skills and technologies. Able to adapt quickly to new environments and work effectively in an organization.

PRACTICAL EXPOSURE

MINI PROJECT : 1

Title : No Horn Zone Enforcement Using IoT

Developed an IoT-based system to detect and control vehicle horn usage in designated no-horn zones. The system helps reduce noise pollution by monitoring sound levels and triggering alerts or enforcement actions.

MINI PROJECT : 2

Title : A Digital Solution For Growth Monitoring And Attendance Management In ICDS Services

A digital system for tracking child growth and attendance in ICDS services. It improves record management and ensures efficient monitoring of beneficiaries.

INTERNSHIP

Title : Front End Web Development

Completed an internship in Front-End and Web Development, focusing on designing responsive web pages using HTML, CSS, and basic JavaScript. Gained hands-on experience in UI design, layout structuring, and improving user experience.

ACHIEVEMENTS

A digital system for tracking child growth and attendance in ICDS services is **'NIRAL SELECTED PROJECT'** among the 500 teams in Tamilnadu.

CERTIFICATIONS

- Value Added Course Certificate in Java Programming
- NPTEL Certification on PCB Design

PROFICIENCY AND AREA OF INTEREST

- Java Programming
- Software Development

CREATIVITY & CATCHY

- Crafts, art creation, and decoration work
- Part-time work experience and handling night-time tasks
- Flexible task execution
