EDUCATION

B.Tech in Information Technology 2023 – 2027
Kongunadu College of Engineering and Technology Trichy, Tamil Nadu

Higher Secondary, Computer Science 2022 – 2023
The Modern Academy Matric Higher Secondary School Namakkal, Tamil Nadu

TECHNICAL SKILLS

- **Programming & Web Technologies** — Java, Python, JavaScript , HTML , CSS
- **Backend & APIs** — FastAPI, REST APIs, Postman
- **Databases** — MongoDB, MySQL
- **Tools & Platforms** — Git, GitHub, Vercel, Hugging Face Spaces, Linux

EXPERIENCE

Pagalava Data Analytics Private Limited 03/2026 – 09/2026
Intern – Product Development (Engineering) Dindigul, Tamil Nadu
- Developed a FastAPI backend service to serve a diagnostic machine learning model through Hugging Face Spaces, enabling real-time inference for Observant, a MedTech wearable product.
- Integrated the backend inference service with a mobile client, implementing request/response handling, error handling, and end-to-end testing across the application workflow.

Accent Techno Soft (ATS) 06/2025 – 07/2025
Web Development Intern Coimbatore, Tamil Nadu
- Developed responsive web pages using HTML, CSS, and JavaScript, converting design mockups into functional user interfaces.
- Debugged interface issues, tested features across browsers, and collaborated with the development team using Git/GitHub in an Agile workflow.

PROJECTS

SafeRoute-AI 08/2025 – 01/2026
Java, Python, FastAPI, JavaScript, Leaflet.js, MySQL
- Developed a geospatial backend service that analyzes historical accident locations to support risk-aware route selection.
- Built an interactive Leaflet.js dashboard for GPS tracking and integrated voice-based safety alerts based on detected route risks.

FarmingAssist 01/2025 – 06/2025
Java, HTML, CSS, JavaScript, MySQL, Git, GitHub
- Built a cross-platform agricultural application providing localized soil and weather advisory information for users.
- Implemented application-side data handling and synchronization workflows to support reliable access to agricultural information in low-connectivity environments.

PUBLICATION

Smart Home Automation: Intelligent Control for Modern Living 09/10/2025
International Journal of Scientific Research in Engineering and Technology
Co-authored a research paper on an integrated IoT automation system using ESP32, Firebase, and React Native.

ACHIEVEMENTS & COMPETITIONS

AMD Slingshot 2026
Top 10 Finalist, Chennai Regional Demo Day

AMTZ MedTech Hackathon
Grand Finalist, Open Innovation Track

IISF 2025 S&T Hackathon
National-level Participant, Government of India

IIC Regional Meet 2025
Participant, MoE's Innovation Cell / AICTE

CERTIFICATIONS

Front-End Web Developer — Infosys Springboard

MongoDB Basics for Students — MongoDB University

Value-Added Course in Cyber Security — Hackup Technology

National Programme on Technology Enhanced Learning — Introduction to Internet of Things (IoT)
