PROFILE

Computer Science Engineering student with a strong foundation in Java and full-stack web development. Skilled in building web applications, designing RESTful APIs, structuring databases, and developing responsive user interfaces. Seeking an entry-level Software Engineering role to apply technical skills and contribute to real-world software development.

EDUCATION

B.E. Computer Science and Engineering **2023 – 2027**
Sri Shanmugha College of Engineering and Technology **CGPA: 8.3**

Higher Secondary (12th) **2022 – 2023**
Government Girls Higher Secondary School **Percentage: 75%**

TECHNICAL SKILLS

Programming Languages : Java, C
Web Technologies : HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB
Tools & Platforms : Git, GitHub, VS Code, GitHub Pages
Areas of Interest : Cloud Computing, Full Stack Development
Soft Skills : Problem Solving, Logical Thinking, Teamwork, Time Management

PROJECTS

Industrial Project Management System
Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3

- Developed the backend architecture using Node.js and Express.js by designing RESTful APIs for task creation, assignment, progress tracking, and status updates. Designed MongoDB schemas to efficiently manage project, task, user, and resource-related data.
- Implemented database operations and API integration for reliable data creation, retrieval, and updates, enabling centralized project monitoring and clear visibility of task progress and workload distribution.

Expense Tracker Website
JavaScript, HTML5, CSS3, Local Storage API

- Designed and developed the complete Expense Tracker application with features to add, edit, delete, and categorize transactions, using JavaScript for input validation and dynamic calculation of income, expenses, and balances.
- Integrated the Local Storage API to persist transaction data across browser sessions and implemented budget monitoring with responsive HTML5 and CSS3 interfaces to help users track spending and identify overspending.

Personal Portfolio Website
HTML5, CSS3, GitHub Pages

- Designed and developed a responsive portfolio website using HTML5 and CSS3 to present projects, technical skills, certifications, and professional information in a structured and recruiter-friendly format.
- Implemented responsive layouts for multiple screen sizes and deployed the website through GitHub Pages, using Git and GitHub for version control and continuous project updates.

CERTIFICATES

- EduSkills Tech Camp – Technology Skill Development Program
- Cloud Computing – NPTEL
- Introduction to Machine Learning – NPTEL
- Full Stack Development Workshop – Kongu Engineering College
