PROFESSIONAL SUMMARY

Computer Science Engineering student with strong interest in Java, Web Development, and AI-based applications. Seeking an entry-level software developer role where I can apply my programming skills and contribute to innovative projects while continuously learning new technologies.

TECHNICAL SKILLS

Languages: Java (Core), C
Web Technologies: HTML, CSS, JavaScript, ReactJS,
Database: MySQL
Tools & Platforms: Git, GitHub, VS Code, Eclipse,

PROJECTS

Early Brain Disease Detection Using Deep Learning and Medical Imaging **(2026)**
Technologies: *TensorFlow, OpenCV*

- Built and trained a convolutional neural network to classify MRI scans into 4 categories: Alzheimer's, Parkinson's, Epilepsy, and Brain Tumors.
- Applied OpenCV-based preprocessing to improve model input quality and reduce misclassification.
- Designed the pipeline to support diagnostic decision support, aiming to speed up preliminary screening for radiologists.

CareDose — RFID-Based Smart Medication Management System **(2025)**
Technologies: *Java, MySQL, Arduino, RFID*

- Developed an RFID-based patient identification and medication verification system to reduce manual dosage errors in hospital wards.
- Designed a MySQL schema to track medication history, patient records, and dosage schedules in real time.
- Built the Java application layer connecting RFID hardware reads to database updates and verification alerts.

Virtual Health Assistant — VIT Bhopal Health Hackathon **(2024-2025)**

- Built a website enabling doctor–patient appointment booking and online consultation under competitive hackathon time constraints.

INTERNSHIP EXPERIENCE

Web Development Intern — Zoro Tech Pvt. Ltd.

- Developed responsive web pages using HTML, CSS, JavaScript
- Collaborated with a development team to implement frontend features from design specifications.
- Debugged and resolved UI issues, improving page load consistency and overall user experience.

EDUCATION

B.E., Computer Science and Engineering — Kongunadu College of Engineering and Technology
2023 – 2027 | CGPA: 7.8

Higher Secondary Certificate (HSC) — Vivekananda Higher Secondary School
2022 – 2023 | 62%

SSLC — Thiru. V. Ka. High School
2020 – 2021 | Pass

CERTIFICATIONS

- I have completed by certification at Infosys Spring Board in title of Prompt Engineering.
- I have completed by certification at way2skills in the title of Frontend Development.

LEADERSHIP & EXTRA-CURRICULAR

- Presented a paper on Artificial Intelligence at Kongu Engineering College; coordinated industrial visit logistics and liaised with faculty.
- Volunteered in organizing multiple college-level technical and cultural events.
