MADHAN RAJA

Software Development Engineer

mr.madhan1306@gmail.com | +91 9344090466 | Tamil Nadu, India | github.com/R-Madhan-1306 | linkedin.com/in/madhan1306

PROFESSIONAL SUMMARY

Software Development Engineer with **1+ year of experience** across full-stack development and backend engineering using **TypeScript, Java, JavaScript, Python, and Go**. Skilled in **React, Node.js, Spring Boot, REST APIs, PostgreSQL, MongoDB, authentication, payment integrations, real-time systems, and Docker deployments**. Progressed from Intern to Technical Lead, delivering production features across **healthcare, fintech, recruitment, and enterprise software**.

CORE COMPETENCIES

Full-Stack Development • REST API Design • Microservices Architecture • Authentication & Authorization (JWT/RBAC) • Payment Gateway Integration • Real-Time Systems (WebRTC/Socket.io) • Database Design • Docker & Deployment • Technical Leadership & Code Review

PROFESSIONAL EXPERIENCE

CubeAI Solutions
Tamil Nadu, India

Technical Lead — *Jun 2026 – Present*
Software Developer — *Feb 2026 – May 2026*
Full Stack Developer Intern — *Jun 2025 – Jan 2026*

- Promoted **Intern → Developer → Technical Lead** in one year based on technical ownership and delivery impact.
- Lead full-stack delivery for client projects across **healthcare, fintech, recruitment, and enterprise software**, guiding architecture, code reviews, and cross-team delivery.

HEARS SOS — Hospital Emergency Alert & Response Platform

Flutter · React · Node.js · Express.js · Prisma · PostgreSQL · WebRTC · Firebase FCM · Socket.io

- Built real-time emergency response platform (Flutter, React, Node.js) for alerts, responder coordination, GPS tracking, and incident management.
- Integrated **WebRTC calling, Firebase push, Socket.io, JWT auth, and multi-tenant RBAC** for secure multi-hospital operations.
- Designed **PostgreSQL** schemas and workflows for multi-hospital operations, incident logs, audit trails, and inter-hospital blood requests.

GetSalary — Digital Lending & Salary Loan Platform

Java 17 · Spring Boot · Spring Security · JPA/Hibernate · Flutter · React · MySQL · JWT · Docker

- Built full-stack lending platform (Spring Boot backend, Flutter app, React admin dashboard) for onboarding, KYC, loan applications, and repayments.
- Implemented **Spring Security with JWT, OTP, and MPIN authentication** plus role-based authorization for secure transactions.
- Built loan eligibility and EMI calculation logic, documented REST APIs via **OpenAPI/Swagger**, and added **JUnit** coverage for auth and transaction flows.

AI-Enhanced Recruitment Platform

React · Node.js · Express.js · SQL · Docker · Nginx · PayU

- Built multi-role recruitment platform (admin, recruiter, job seeker) supporting job postings, applications, and subscription management.
- Integrated **PayU payment gateway** with webhook-based transaction tracking, idempotent payment handling, and automated invoice generation.
- Containerized services with **Docker** and configured an **Nginx** reverse proxy with SSL termination for production deployment.

Enterprise Endpoint Monitoring & Activity Tracking System

Go · NestJS · TypeScript · React · PostgreSQL · JWT

- Built a cross-platform **Go monitoring agent** for Windows, macOS, and Linux to capture endpoint events and sync activity data with backend services.
- Developed **NestJS** APIs with queue-based processing to handle device heartbeats, audit logs, and high-frequency endpoint activity at scale.
- Built a React dashboard for real-time monitoring; guided junior developers on Go concurrency patterns and backend API architecture.

Six Phase Edu Tech
Coimbatore, Tamil Nadu

Backend Intern — *Jul 2024 – Aug 2024*

- Developed **RESTful APIs** across modules and implemented client-server backend integration.
- Implemented **cookie-based session management** and protected routes for authenticated workflows.

TECHNICAL SKILLS

Languages:	Java, TypeScript, JavaScript, Python, Go, Dart
Frontend & Mobile:	React.js, Next.js, Flutter, Tailwind CSS, HTML5, CSS3
Backend:	Spring Boot, Spring Security, Node.js, Express.js, NestJS, REST APIs
Databases:	PostgreSQL, MySQL, MongoDB, SQLite
Security & Architecture:	JWT, RBAC, API Security, WebRTC, Microservices, Database Design
Payments & DevOps:	Razorpay, PayU, Payment Webhooks, OpenAPI/Swagger, Docker, Nginx, Git, GitHub, Postman

EDUCATION

Bachelor of Engineering — Computer Science & Engineering — *Oct 2021 – May 2025*

Nandha College of Technology, Erode, Tamil Nadu | CGPA: 7.66 / 10
