CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student seeking an entry-level opportunity in software development or embedded systems. Eager to apply technical knowledge in Java to contribute to innovative projects while continuously growing within a dynamic engineering team.

EDUCATION

B.E. Electronics and Communication Engineering -8.31 CGPA
Kongunadu College of Engineering and Technology *2023 – 2027 (Ongoing)*

Higher Secondary Certificate (HSC) -84%
St. Joseph's Matriculation Higher Secondary School *2023*

Secondary School Leaving Certificate (SSLC) – 100%
St. Joseph's Matriculation Higher Secondary School *2021*

INTERNSHIP EXPERIENCE

Full Stack Development Intern | Astonish Infotech Pvt. Ltd. Trichy

- Gained hands-on exposure to Full Stack Development using Java, HTML, and CSS.
- Learned how frontend and backend systems are integrated in real-time web applications.
- Developed a foundational understanding of the software development lifecycle and team workflows.

PROJECT

Smart Embedded Safety Device for Women

- Developed a portable wearable device that triggers emergency alerts with real-time GPS location sharing.
- On button press, a buzzer activates to alert nearby individuals while an SMS with live location is dispatched to emergency contacts.
- Designed for reliability and quick response, ensuring effective assistance during emergency situations.

Audio Authenticity Detection

- **The Threat:** Advanced AI voice cloning generates hyper-realistic synthetic speech, fueling identity fraud, audio deepfakes, and forged legal evidence.
- **The Solution:** A proposed software system extracts discriminative acoustic features across time, frequency, and cepstral domains, relying primarily on Mel-Frequency Cepstral Coefficients (MFCCs).

TECHNICAL SKILLS

Programming	Core	Softskills
Java	IoT	Time Management, Problem Solving

CERTIFICATIONS & WORKSHOPS

- Java Basics – Value Added Course conducted by Yellomatics (In-College Program)
- Paper Presentation – Fire Fighting Robots
- Workshop – VLSI Design
- Hackathon – AISEHackANRF hackathon(Flood detection)

EXTRA CURRICULAR ACTIVITY

- Won bronze and silver medal in 400 meter relay at intra college sports event.

LANGUAGES

- English
- Japanese (learning)
