PON VENKATESH

+91-9360506687 | ponvenkateshmurugan@gmail.com | Linkedin: ponvenkatesh | Kanyakumari, Tamil Nadu

Professional Summary

CCNA-trained Computer Science graduate (2026) skilled in routing, switching, and network security, with hands-on lab experience building and troubleshooting enterprise-grade networks. Eager to bring strong fundamentals and a fast-learning mindset to a Network Engineer or NOC Engineer role.

Technical Skills

Routing Protocols: RIP, EIGRP, OSPF,BGP (Static & Dynamic)
Security & Translation: ACLs (Standard & Extended), NAT, VPN, Firewall Configuration
Core Networking: OSI Model, IPv4, IPv6,Subnetting, VLSM, DHCP, DNS, TCP/UDP
Cloud Networking: AWS VPC Subnets, Security Groups
Monitoring & Diagnostics: Network Monitoring, Wireshark, Zabbix,TroubleshootingMethodologies
Tools & Hardware: Cisco Packet Tracer, Cisco Routers & Switches, Active Directory
Operating Systems: Windows 10/11, Windows Server Basics, Linux Basics
Additional: Network Administration, MS Excel, Technical Documentation
Programming Language: Python (basic scripting for automation)

Projects

Automated Network Monitoring & Incident Alerting System | *GitHub Link: NOC Monitoring*

- Built a network topology in Cisco Packet Tracer simulating SNMP and deployed a Zabbix server on a Linux VM for centralized monitoring
- Developed a Python watchdog daemon that tracks link downtime and dispatches instant incident alerts to administrators via Telegram Bot API.

Enterprise Multi-Area OSPF Network & Security Design | *GitHub Link: cisco-enterprise-network-design*

- Designed a multi-area OSPF network in Cisco Packet Tracer with 802.1Q VLAN segmentation to reduce broadcast domains.
- Implemented centralized DHCP relay and configured Extended ACLs to isolate sensitive HR departmental traffic.

Certifications & Training

- Generative AI in Action – IBM SkillsBuild, 2025
- AWS Cloud Quest: Cloud Practitioner – Amazon Web Services, 2026
- Linux Unhatched – Cisco, 2026
- LAN/WAN Administrator using Cisco Routers&Switches – Logos Technologies, 2026
- Networking Basics – Cisco, 2026
- Python 101 for Data Science – Cognitive Class, 2025

Educational Qualification

Ponjesly College of Engineering — Nagercoil
B.E. Computer Science and Engineering (CSE) – CGPA: 7.8 — *2022 – 2026 (Graduated)*

- **Achievement:** Participation Certificate, Intel All India Hackathon

Class XII (Tamil Nadu State Board) — 72.6%
Higher Secondary Education — *2022*
Class X (Tamil Nadu State Board) — 74%
Secondary Education — *2020*
