SUMMARY

B.Tech Information Technology graduate with hands-on experience in Java, Python, React.js, FastAPI, SQL, and REST APIs through internships and projects. Skilled in backend and full-stack development, database integration, REST API development, testing, and Git-based workflows, with a strong foundation in OOP, DSA, and DBMS.

EDUCATION

- **Bachelor of Technology in Information Technology** — Aug 2022 – May 2026
  Saveetha Engineering College, Chennai, Tamil Nadu — **CGPA: 8.1**
- **Higher Secondary Education** — June 2021 – May 2022
  Sri V.R.V Matric Hr.Sec School, Tirupathur, Tamil Nadu — **Percentage: 80%**
- **Secondary Education** — June 2019 – May 2020
  Sri V.R.V Matric Hr.Sec School, Tirupathur, Tamil Nadu — **Percentage: 96%**

TECHNICAL SKILLS

Programming Languages:	Python, Java, JavaScript
Backend & Frontend:	React.js, HTML5, CSS3, REST APIs, FastAPI
Databases & Tools:	MySQL, MongoDB, GitHub, Postman, VS Code
Core Concepts:	Data Structures & Algorithms, Object-Oriented Programming
AI :	Generative AI, Machine Learning, NLP
Soft Skills:	Problem Solving, Team Collaboration, Adaptability, Quick Learning

EXPERIENCE

Arjun Vision Tech Solutions — Chennai, India
Android App Development Intern — June 2024 – July 2024

- Developed and delivered Android applications using Java and Android Studio, building application components from functional requirements and performing iterative testing to identify and resolve implementation issues before integration.
- Analyzed and resolved application defects through debugging, log analysis, and code refactoring, addressing functional and usability issues and improving application stability across implemented features.
- Took ownership of feature validation across application modules within an Agile workflow, using GitHub for code integration and systematically testing, debugging, and verifying changes throughout the development lifecycle.

PROJECTS

Food Allergy Detection and Management — October 2025
Skills: Python, FastAPI, React.js, MongoDB, Generative AI, REST APIs — **[GitHub]**

- Developed an AI-powered platform that analyzes food-label images and ingredients to detect potential allergens and provide personalized allergy risk analysis.
- Built secure FastAPI REST APIs with JWT authentication and MongoDB for user profiles, allergy tracking, scan history, health diaries, and personalized recommendations.

Chatbot for Mental Health Treatment — August 2024
Skills: Python, JavaScript, HTML5, CSS3, NLP — **[GitHub]**

- Developed a web-based mental health chatbot using Python, HTML, CSS, and JavaScript, implementing conversational processing and interactive user responses.
- Integrated natural language processing and API-based communication with a responsive frontend to support dynamic conversations and multilingual user interactions.

ACHIEVEMENTS

- **LeetCode:** Solved 80+ data structures and algorithms problems.
- **HackerRank:** Achieved 4-Star in Python — Gold Badge — 2,223 Hackos

CERTIFICATIONS

- **IBM Java Developer** — Sep 2025
- **Deloitte Data Analytics Job Simulation** — Dec 2025
- **Microsoft Azure Associate Engineer** — Apr 2024
- **SQL (Intermediate) Certificate — HackerRank** — Nov 2024
