ABHYAZ | Data Analyst Intern (June 2025 – Dec 2025)

- Worked on Zoho CRM modules such as Accounts, Leads, Contacts, Potentials, and created Leads dashboard for Abhyaz.
- Implemented Zoho CRM for VHS Mechatronics, Chennai, involving data cleaning, data migration, module configuration (Accounts, Contacts, Deals, Quotes, Sales Orders), and template creation for Quotes and Sales Orders.
- Designed module layouts, fields, dashboards, and optimized workflows based on client requirements.
- Participated in daily hurdle meetings and bi-weekly client review meetings for requirement gathering and validation.
- Built dashboards to track KPIs and supported CRM customization and usability improvements.

MBA ACADEMIC PROJECT | BUSINESS ANALYTICS (2023-2025)

- Conducted a study on Customer Database Management and its impact on Business Process Management at NWIC, Chennai. Performed descriptive, correlation, regression, and non-parametric analyses using survey data. Evaluated CDM efficiency, forecasting gaps, and BPM performance metrics.

COGNIZANT TECHNOLOGY SOLUTIONS | Quality Analyst
Mar 2016 – Jan 2018 (1 year 10 Months) | Chennai, India

- Experienced Manual Tester with strong skills in analyzing BRD/FRD, maintaining RTM, requirement analysis, test planning, test case design, and execution across Web, Desktop, Mobile (Android/iOS), and Tablet applications.
- Proficient in Functional, Regression, UI, Sanity/Smoke, System, Ad-hoc, and End-to-End Testing with solid knowledge of STLC, Defect Life Cycle, defect management, and log analysis.
- Actively participated in daily Scrum meetings, sprint estimations, client status calls, and handled planning, scripting, execution, defect triage, UAT, post-release and production checks.
- Skilled in JIRA and TestRail for defect reporting, tracking, test suite management, and execution monitoring, along with hands-on SQL experience for DB testing.
- Strong exposure to e-commerce platforms with proven ability to deliver 100% quality outputs and receive direct client appreciation.
- Effective team player with the ability to independently manage deliverables and communicate clearly.

AVON – US (Aphrodite Redesign Project): Completed full SDLC activities for 2 years, performing end-to-end testing of the redesigned *youravon.com* platform migrated to Magnolia CMS. Conducted multi-device testing across Desktop, Mobile, and Tablet devices using MySQL, JIRA, and TestRail for tracking, reporting, and execution.

CITITECH INDUSTRIAL ENGR PVT LTD | CNC Programmer
Dec 2018 – Jan 2020 (1 year 1 Month) | Singapore

- Cititech is a leading sheet metal service provider and custom metal fabricator offering services such as laser cutting, punching, bending, welding, nut setting, fabrication, and assembly.
- Created 3D designs in SolidWorks and developed CNC programs for production models. Prepared bending and fabrication drawings, supervised and planned the fabrication process, and managed process layout and troubleshooting.
- Coordinated raw material procurement, prepared quality checklists, and maintained powder-coat documentation.
