CURRICULAM VITAE

Personal Details:

Name	:	**NAGARAJAN .R**
Date of birth	:	14 / 06 / 1983
Qualifications	:	**M.Tech. (Textile Technology)** B.Tech. (Textile Technology) D.M.M.F.T (Man Made Fibre Technology) X Std. (SSLC)
Language known	:	Tamil & English
Address for communication	:	#3/111A, Chinna Agraharam, Sarkar Nattamangalam, S.N. Mangalam Post, Belur main road, **Salem -636106**
E mail	:	**nagarajantextile@gmail.com**
Mobile numbers	:	**+91- 9789621160 / 6381247100**

PROFESSIONAL SYNOPSIS

- **A proven textile technologist with over 23 years of industrial experience,** I have spent 12 years in the composite spinning industry, where I worked with knitting, dyeing and garment-making facilities to produce knitted garments. Additionally, I have 3 years of experience in a composite weaving mill that included spinning, wet processing, and made-up facilities for producing bed linen products. I also spent 2 years in textile research association and 6 years in customer technical service and sales for viscose multifilament yarns and transparent papers. Currently I am offering technical services to small & medium scale spinning mills and teaching textile subjects to diploma & UG level students as a guest faculty

- Throughout my career, I have spearheaded various functions, including production, quality control & assurance, customer technical service, auditing, inspection, operational studies, techno-economics, defect analysis, and the costing of yarns, fabrics, and finished products. My efforts have consistently resulted in cost savings, selection and control of raw materials, and the achievement of quality, cost, profit, service, and organizational objectives for leading textile manufactures.

- Worked in spinning mills as junior production officer level to DGM (Group Quality Head)

KEY PROFESSIONAL SKILLS

- Have good managerial qualities.
- Possess strong teaching and explanation skills by conducted various training classes to technologist in spinning industry.
- Good exposure to quality assurance and standards of yarns and fabrics, costing & techno-economics.
- Good knowledge in spinning, weaving, chemical processing, and garment making.
- Hands-on experience in the field of spinning projects and research & consultancy.
- Handled a large composite spinning mill with knitting, dyeing and garment-making facilities producing knitted garments and a large weaving mill with spinning, fabric & yarn dyeing, and made-ups facilities producing bed linen products.

Composite Spinning Unit

- Gained valuable experience in customer technical service, quality management systems, and the standards of fibers, yarns, and fabrics. My expertise includes costing, techno-economics (TEV), as well as the inspection and testing of these materials.
- Conducted operational studies in spinning and quality trials to achieve optimal yarn quality from various raw materials while optimizing process parameters.
- Managed the production and quality of different yarns for hosiery and weaving segments, which involved inspecting and testing both primary raw materials and finished yarn.
- Performed defect analyses on customer samples using scientific methods to identify the root causes of complaints and resolved issues with customers. Additionally, I conducted various studies and trials aimed at quality improvement and minimizing value loss.
- Prepared standards for in-process testing, including control and tolerance limits, as well as quality norms for grey and dyed knitted fabrics, which are reviewed and revised periodically as needed. I assured in the development of new products through project appraisal and budgeting for the mills.
- Coordinated with the cotton purchasing department to obtain raw materials that meet specified quality standards.
- Organized management review meetings and group technical meetings with department such as production, quality, maintenance, and engineering. I also provided technical support to the marketing department while finalizing orders and ensuring technical specifications were met.
- Prepared standard/reference samples of yarn and fabrics for customer quality approval and conducted customer satisfaction surveys using questionnaires.
- My experience includes managing production and quality control of hosiery yarns ranging from 16s to 40s Ne for knitting, as well as warp yarns ranging from 54s to 64s Ne for weaving.
- Ensured inspection and quality assurance of in-house grey knitted fabrics (S/J and RIB)
- Possess hands-on experience with several models spinning machines from manufactures such as Lakshmi Machine Work, Trutzchler, Rieter, Zinser, Marzoli, KTTM, Muratec, and Schlaforst. Additionally, I have utilized various testing instruments for process control in spinning, including Statex (Wrap reel, Lea Tester, MAG (TPI tester & CLT) and Uster (HVI, AFIS, UT4/5 & CMT).

Composite Weaving Unit

- Managed quality assurance (QA) activities for both in-house and outsourced grey yarns. Grey fabrics, and dyed fabrics. My focus was on ensuring the cost of quality while closely monitoring in-process control studies. Based on observations from individual QA departments, I provided recommendations for improving processes and product quality. Strictly adhered to the quality requirements of each production unit and conducted liaison visits to these units according to schedule.
- Handled troubleshooting across various processes, including spinning, weaving and dyeing. Additionally, I assisted in organizing internal and external audits for system implementations, such as Organic Cotton and Fair Trade Certifications.
- Have basic exposure to the weaving machinery used in the production of bed linen fabrics, specifically from Benninger and Picanol, which feature Air-jet and rapier weft insertion.
- Furthermore, closely monitored quality assurance for various fine counts of yarns, ranging from 1/90s to 2/140s Ne, ensuring compliance with Uster Statistics at the 25-50% quality level. This was crucial for exporting home textile products to major buyers such as Macy's, Kojl's, Debenhams, John Lewis Partnership (JLP), Home Source, Le Meridian, PSG Hospitals, Sears Canada, and DAPW.

In Textile Research Association

- Responsible for several breakthrough projects focused on reducing value loss in the consultancy field, achieving significant results.
- Visited over 30 industries for liaison and consultancy work.
- Additionally, I published an article on "Quality Assurance Activities in a Textile Composite Mill – A Case Study". (ITJ)
- Compiled the data and consolidated the same for 4 straight series of "Cost, operational Performance and yarn Quality (CPQ) an inter-mill survey of key parameters"
- Assisted in the design and development of hernia repair warp knitted mesh using monofilament polypropylene, as well as heart patch warp knitted fabric.
- Furthermore, I was involved in executing the installation of a specialized warping and tricot warp knitting machine for a medical textile project.

Specialties

- Quality Assurance, Project Appraisal and Management, Research and consultancy, Yarn/Fabric sourcing, planning, liaisoning, and auditing.

Results achievements

- Produced various yarns while strictly adhering to Uster Statistics at a quality level of 25-50%.
- By improving realisation, reduced value loss in various yarns and fabrics.
- Managed and ensured the cost of quality effectively, this led to consistently high level of quality. As a result, customer complaints decreased, and product returns were minimised due to ongoing improvements in both process and product quality.

EDUCATIONAL QUALIFICATIONS

Education	Year	Specialization	College	University	Class & % of marks	Certificate of merits
M.Tech (PT)	May 2014	Textile Technology	PSG College of Technology, Coimbatore.	Anna University, Chennai.	First class with Distinction (CGPA) **9.23**	Securing **first rank** from first year to final year. **(ROLL OF HONOUR)**
B.Tech (PT)	April 2007	Textile Technology	PSG College of Technology, Coimbatore	Anna University, Chennai.	First class with Distinction (CGPA) **8.99**	Securing **second rank** from first year to final year.
D.M.M.F.T	April 2001	Man Made Fibre Technology	Thiagarajar Polytechnic College, Salem.	State Board of Technical Education & Training	First class with Honours. (CGPA) **93.9**	Securing **first rank** in final year **(ROLL OF HONOUR)** & second rank in second year.
SSLC	April 1998	Secondary school education	Municipal boys higher secondary school, Salem	State board of Tamilnadu	**80.6 %**	--

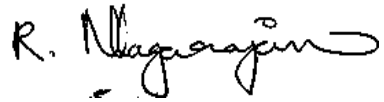

DETAILS OF JOBS HELD

Designation	Organization	Period of employment			
		From	To	Years	Months
Technical Consultant & Guest faculty	-	Oct 2023	Present	2+	-
Deputy General Manager –DGM (Q)	Loyal Textile Mills Ltd, Kovilpatti	October 2022	Sep 2023	-	11
Regional in-charge – CTS & Sales	Kesoram Rayon, Southern region of India	August 2016	October 2022	6	2
Scientific Officer	The SITRA, Coimbatore.	March 2014	March 2016	2	-
Manager (QA/QC)	VTX Industries Limited Coimbatore.	October 2011	February 2014	2	10
QAM (Production & Quality)	KAS Industries India Limited, Erode.	August 2008	June 2011	2	10
JPO to QAM (CSD, Group)	KPR Mills Limited, Tirupur.	May 2001	June 2008	7	1
