## PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology graduate with a strong foundation in Java, object-oriented programming, and full-stack web development. Experienced in building end-to-end applications using React.js, REST APIs, and SQL databases, with hands-on exposure to machine learning and real-world project development. Looking to leverage strong analytical and development skills to grow as a software professional and contribute meaningfully to organizational goals.

## EDUCATION

**Bachelor of Technology in Information Technology Full-time** 2023 - 2027
M.Kumarasamy College of Engineering **,** Karur | Anna University, Chennai
- CGPA : 7.72/10(till 6th semester)

**Higher Secondary Leaving Certificate(HSLC)** Full-time 2022 - 2023
P.A.Vidhya Bhavan Higher Secondary School , Karur | Tamilnadu State Board
- Percentage : 88 %

S**econdary School Leaving Certificate(SSLC)** Full-time 2020 - 2021
Hajee Meera Academy Model Matric High School , Karur | Tamilnadu State Board
- Percentage : 80 %

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, React
**Backend:** Spring Boot, REST APIs
**Language:** Java, JavaScript,
**Database:** SQL, MySQL
**Developer Tools:** GitHub, Visual Studio Code, Eclipse IDE, Postman, Maven

## SOFT SKILLS

Team Collaboration - Communication - Adaptability

## PROJECTS

**Machine Learning–Based Parkinson's Disease Detection System**
- Developed an AI-powered diagnosis system for Parkinson's disease by combining DaT scan, handwriting, and voice analysis into a single multi-modal prediction model.
- Designed the system to provide confidence-based results along with clinical interpretation, along with AI-powered lifestyle guidance to support early diagnosis and patient care.

L**earning Platform for Low-Internet Areas**
- Designed and developed an educational learning platform optimized for low-bandwidth environments, focusing on rural and underserved areas.
- Implemented offline-first features and content caching to allow students to access learning material with limited or unstable internet connectivity.
- Built a lightweight, responsive frontend using HTML, CSS, and JavaScript to ensure fast load times on low-end devices and slow networks.

## ACHIEVEMENT

- Machine Learning-based Detection with AI-Powered Lifestyle Guidance for Parkinson's Disease — ICAAIC 2025 (IEEE), published on IEEE Xplore, Jan 2026.
- AdaptiveBridge Lite: Assistive Communication System for Non-Verbal Children with Motor Impairment — IEEE COMPUTINCOM 2026, DY Patil University.
