LinkedIn | GitHub | LeetCode

PROFESSIONAL SUMMARY

Computer Science Engineering student and Full Stack Developer Intern with hands-on, production-level experience building scalable web applications on the MERN stack. Skilled in developing and maintaining RESTful APIs and services in Node.js/Express.js, building responsive front-end interfaces in React.js, and ensuring application performance, security, and reliability through structured testing and code review practices. Comfortable collaborating in agile, cross-functional teams across the full software development lifecycle, from design through deployment.

EDUCATION

B.E - Computer Science and Engineering

Muthayammal Engineering College, Anna University — CGPA: 7.81/10 *(2023–2027 - Pursuing)*

HSC

Rasi Matric Higher Secondary School, State Board — 76% *(2023)*

SSLC

Holy Mother Matriculation School, State Board — 100% *(2021)*

TECHNICAL SKILLS

Languages: JavaScript, Java, C.
Front-End: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Back-End / APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO
Databases: MongoDB (Atlas), SQL
Testing & QA: Unit Testing, Integration Testing, Postman, Code Reviews
DevOps & Cloud: Git, GitHub, Docker (Learning), AWS (Learning), Jenkins (Learning), Render, Vercel
Tools: VS Code, Render, Vercel ,Figma, Postman

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern (MERN) — Echo Digital Works *Mar 2026*

- Build and maintain full-stack features end-to-end across React.js front-ends and Node.js/Express.js back-ends, working within an agile team to ship scalable, production-ready code.
- Develop and consume RESTful APIs and services, integrating MongoDB for data persistence and ensuring secure, JWT-based access control.
- Participate in code reviews and unit/integration testing to improve application performance, scalability, and security ahead of deployment, coordinating with the team on deployment troubleshooting.

Web Developer Intern — Yuga Yatra Private Limited *2025-2026*

- Developed responsive and interactive web applications using React.js, JavaScript, HTML, and CSS.
- Collaborated with cross-functional teams to design, develop, and optimize user-friendly web solutions.
- Improved application performance and user experience through component-based architecture and modern front-end development practices.

KEY PROJECTS

WIFIChat Connect — Local Wi-Fi-Based Web Application GitHub Link

- Built a secure local-network chat application with IP-based access control, supporting real-time messaging, file/PDF sharing, and typing indicators.
- Implemented JWT-based authentication and role-based authorization, including an admin dashboard for user management and analytics.
- Designed a session-tracking system to log login/logout timestamps and compute online duration for audit and reporting.

Tech: React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO, JWT, Multer

School Website Platform — Production Deployment

- Delivered a comprehensive, production-ready school website using React.js with advanced UI patterns and multiple role-based portals (students, staff, admin).
- Focused on scalable component architecture, performance, responsive user experience.

Tech: React.js, Node.js, MongoDB, REST APIs

Music Streaming Web App — Spotify-Inspired Clone GitHub Link

- Developed a full-stack music streaming application on the MERN stack with secure JWT-based authentication and role-based access control.
- Implemented real-time synchronized playback and live chat using Socket.IO for simultaneous multi-user sessions.
- Built an admin dashboard for song management (upload, update, delete) using Multer and MongoDB.

Tech: React.js, Node.js, Express.js, MongoDB Atlas, Socket.IO, JWT, Multer

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) — Scored above 85%
