Summary

Full Stack Developer with experience building web applications and skilled in REST API development, JWT authentication, responsive web design, and problem solving.

Technical Skills

Languages: Java, Python, JavaScript, SQL, HTML, CSS
Frontend: React, Responsive Web Design
Backend: REST API Development, JWT Authentication
Database: MySQL
Tools: Git, GitHub, Postman, Render, VS Code

Projects

Guardian Eyes | AI PPE Monitoring System GitHub
Python, OpenCV

- Developed a computer vision model trained on annotated images for PPE detection.
- Achieved real-time safety monitoring for PPE detection.
- Automated safety compliance monitoring in hazardous work environments.

MediTracker | Healthcare Monitoring Platform GitHub
React, Node.js, Express.js

- Developed a healthcare monitoring platform for patient management.
- Built REST APIs for managing patient records.
- Implemented automated email notifications.

Rainwater Harvesting Assessment System GitHub
Flask, React, Machine Learning, GIS

- Developed a rainwater harvesting assessment platform.
- Built dashboards for environmental data visualization and water resource planning.

Experience

Web Development Intern Mar 2025 – Apr 2025
Coding Samurai | Remote

- Developed To-Do List and Calculator web applications using HTML, CSS, JavaScript, and React.
- Created responsive React components and managed project versions using Git and GitHub workflows.

Java Full Stack Developer Intern Mar 2026
Next Future Technology Pvt. Ltd. | On-Site

- Developed a Library Management System in Java using OOP principles and Collections Framework.
- Built a modular Java Calculator application with optimized arithmetic operations and structured class design.

Education

Kongunadu College of Engineering and Technology 2023 – 2027
B.Tech Information Technology CGPA: 8.45

Sacred Heart Girls Higher Secondary School 2021 – 2023
Higher Secondary Certificate (HSC) 90.83%

Achievements

- Won 1st Prize at HACKNOVA 2K26 Hackathon.
- Secured 2nd Prize at GENESIS'23 24-Hour Hackathon.
- Secured 1st Prize in Paper Presentation at COMBLAZE 2K25.
- Secured 1st Prize in Code Debugging at COMBLAZE 2K25.
- Presented research papers at multiple engineering symposiums.
