Ezhilarasi S

Aspiring Data Analyst

+91 8489148925 — ezhilsubramani12@gmail.com — Namakkal, Tamil Nadu, India

GitHub — LinkedIn

SUMMARY

Aspiring Data Analyst with hands-on experience in Python, SQL, Excel, and Power BI for data analysis and visualization. Skilled in data cleaning, preprocessing, EDA, statistical analysis, and dashboard development. Experienced in transforming data into actionable business insights using Pandas, NumPy, Matplotlib, Seaborn, and Power BI. Strong analytical and problem-solving skills with a focus on data-driven decision-making.

CERTIFICATIONS

Program in AI Driven Data Analytics Jan 2026 – Aug 2026 — Entri — Illinois Tech & NSDC

- Covered Excel, SQL, Power BI, and Python with practical data cleaning, analysis, visualization, and reporting.
- Applied analytics techniques to real-world datasets to generate actionable business insights.

EDUCATION

- **M.Sc. International Business with Data Analytics** 2021 – 2023
  University of Bedfordshire, UK
- **B.E Civil Engineering** 2014 – 2018
  Knowledge Institute of Technology, Salem

TECHNICAL SKILLS

- **Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **SQL:** MySQL, Joins, Subqueries, CTEs, Window Functions, GROUP BY, HAVING, Aggregate Functions
- **Visualization:** Power BI, Microsoft Excel, Dashboard Development, KPI Reporting
- **Excel:** Pivot Tables, XLOOKUP, Power Query, Charts, Conditional Formatting
- **Data Analysis:** Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis
- **Tools:** Google Colab, Git, GitHub, MySQL Workbench, Microsoft Excel, Power BI
- **Soft Skills:** Analytical Thinking, Problem Solving, Critical Thinking, Communication, Team Collaboration

PROJECTS

Poshan Statistics Analysis (Python — Pandas — NumPy — Matplotlib — Seaborn)) GitHub Link

- Analyzed the Poshan Statistics dataset to evaluate nutrition and Anganwadi service performance.
- Performed data cleaning, preprocessing, missing value handling, and data transformation using Python and Pandas.
- Conducted exploratory data analysis (EDA) to identify trends, patterns, and regional disparities.
- Developed visualizations using Matplotlib and Seaborn to present key findings effectively.
- Generated actionable insights to support data-driven decision-making and performance monitoring.

India Labour Market Analysis (Excel & Power BI) GitHub Link

- Analyzed real-time government labour market data to study employment and unemployment trends across India
- Examined gender-wise, age-wise, and sector-wise workforce distribution using Power BI dashboards
- Performed data transformation and reshaping using Excel, Power Query, and XLOOKUP
- Identified regional disparities and youth unemployment trends across different Indian states

E-Learning Purchase Analysis using MySQL GitHub Link

- Designed a relational database schema for an e-learning platform using MySQL
- Analyzed learner purchasing behavior, course performance, and revenue trends
- Used JOINS, GROUP BY, HAVING clauses, and aggregate functions for analysis
- Generated business recommendations based on SQL analysis

EXPERIENCE

Team Leader – Papa John's, UK Nov 2023 – Nov 2024

- Analyzed daily sales and transaction data using Excel to track KPI performance
- Created reports and dashboards to support operational decision-making
- Identified business trends and improved reporting accuracy through data analysis
- Performed data validation and cleaning to maintain reporting consistency
