Career Objective

Aspiring IT professional with Java Full Stack Development knowledge and hands-on experience in AI-driven projects. Seeking an opportunity to apply my technical skills, collaborate with experienced teams, and build innovative solutions while continuously growing in emerging AI technologies.

Education

B.Tech. – Information Technology 2023 – 2027
Kongunadu College of Engineering and Technology | CGPA: 7.5

HSC 2022 – 2023
Government Higher Secondary School | Percentage: 84%

SSLC 2020 – 2021
Government High School | Percentage: -

Technical Skills

- **Programming Languages:** Java(primary), Python
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** MySQL, MongoDB
- **Core Concepts:** OOP, Data Structures, DBMS
- **Tools & Platforms:** Git, GitHub, VS Code

Soft Skills

- Leadership
- Creativity
- Communication
- Teamwork

Projects

Smart YouTube Video Summarizer

Technologies: Python, Streamlit, YouTube Data API, YouTube Transcript API, LLaMA3, NLP

Developed an AI-powered web application that generates concise summaries from YouTube videos by extracting transcripts and processing them using the LLaMA3 model. Built with Streamlit, the system provides quick insights, improving accessibility and **reducing video consumption time**.

Smart Energy Monitoring System Using IoT

Technologies: ESP32, ACS712 Sensor, PIR Sensor, Relay Module, Arduino IDE, IoT

Developed an IoT-based smart energy monitoring system using ESP32 and ACS712 sensor to track real-time electricity consumption. Implemented automatic power cut-off and motion-based lighting control to improve energy efficiency and **reduce power wastage**.

Internship Experience

Full Stack Development | E Soft IT Solutions, Trichy Jun 2025 – Jul 2025

Worked as a Full Stack Developer trainee, developing both front-end and back-end components of web applications. Built and integrated dynamic web pages with database connectivity, focusing on user interaction and data handling. Gained hands-on experience in full stack development, improving problem-solving and coding skills.

Hackathons

- Participated in MSME Hackathon and successfully presented a solution .
- Participated in InnoHack Hackathon conducted at VIT College.
- Participated in SCT HACK FEST Selvam college of Technology

Courses

- Internet of Things & Machine Learning — NPTEL
- Introduction to Machine Learning— NPTEL
- Core Java — Kongunadu College of Engineering and Technology (by Yellowmatics.ai)

Co-Curricular Activities

- Attended a technical workshop at NIT Trichy to gain practical industry insights.
- Attended a two-day seminar on Generative AI in Healthcare at Kongunadu College of Engineering Technology.
- Attended workshop on “Networking” at KSR College.
