KANAGA SANTHOSH M.M

Tenkasi, Tamil Nadu | 9790532610 | kanagasanthoshmuthu@gmail.com

PROFESSIONAL SUMMARY

Biomedical Engineering graduate (B.E., 2024) with hands-on hospital experience in medical equipment operation, troubleshooting, and cardiac monitoring systems. Skilled in signal integrity, equipment maintenance principles, CAD modeling, and 3D printing, with a proven record of technical innovation including a published patent and a national-level engineering award. Seeking an entry-level Biomedical Engineering role applying strong analytical and hands-on technical skills to medical device support and design.

WORK EXPERIENCE

ECG Analyst — Healthwatch CHC *Sep 2024 – Nov 2025*

- Operated and monitored Holter and telemetry cardiac monitoring systems, ensuring accurate continuous signal acquisition.
- Identified and corrected recording artifacts to maintain ECG signal integrity, applying technical understanding of biomedical signal behavior.
- Analyzed and interpreted ECG waveforms to detect arrhythmias, ST-segment changes, and conduction defects with high accuracy.
- Escalated critical cardiac events to physicians for timely intervention, working within strict clinical and technical accuracy standards.

Biomedical Engineering Intern — Apollo Hospital *Jul 2023 - Aug 2023*

- Supported troubleshooting and preventive maintenance activities on hospital biomedical equipment, gaining direct exposure to equipment safety and compliance protocols.
- Observed device lifecycle handling in a regulated clinical environment, building foundational understanding of medical device compliance requirements.

EDUCATION

Bachelor of Engineering in Biomedical Engineering (2024) — Paavai Engineering College

Post Graduate Diploma in Regulatory Affairs (2026) — Global Institute of Health Science

CERTIFICATIONS & TRAINING

- Medical Equipment & Programming Language — Hands-on Training
- 3D Printing & CAD Modeling — Future Skills PRIME
- Certified Cardiology Technician
- ISO 13485 QA for Medical Devices — Udemy
- Generative AI Fundamentals — Microsoft

ACHIEVEMENTS

- 1st Prize — Innovation Contest, Techfinix-23 (National Level Technical Symposium)
- Patent Publication — “Creatinine Level Identification Through Urinal Analysis”
- Conference Paper — Presented at the International Conference on Innovation Research in Engineering Science, Christ the King Engineering College

SKILLS

Technical / Engineering: Biomedical Equipment Troubleshooting & Maintenance, Cardiac Monitoring Systems (Holter, Telemetry), Signal Integrity & Artifact Correction, CAD Modeling, 3D Printing

Analytical: Cardiac Data Interpretation, Data Accuracy & Attention to Detail, Technical Documentation

Regulatory/QA Awareness: ISO 13485 (Medical Device QMS), SOP Adherence & Compliance

LANGUAGES

English, Tamil

AREAS OF INTEREST

Biomedical Equipment Design & Maintenance, Medical Device Engineering, Clinical Engineering, R&D
