SORNA MALLIKA M | Aspiring Software Engineer

8015754245 | sukimaya2003@gmail.com | Tirunelveli, Tamilnadu

https://www.linkedin.com/in/sorna-mallika-ab9060331

PROFESSIONAL SUMMARY

Motivated Information Technology graduate with hands-on experience in software development, cybersecurity, and geospatial data analysis. Experienced in developing technical solutions, collaborating on cross-functional academic and internship projects, and delivering research-based software applications. Passionate about Agile methodologies, Software Development Life Cycle (SDLC), Generative AI, and Technical Program Management, with strong problem-solving, communication, and project coordination skills.

TECHNICAL SKILLS

Programming: Python, Java, Flutter

Web Technologies: HTML, CSS, REST APIs

Software Development: SDLC, Git & GitHub, API Integration

Project Management: Devops tools, Agile Methodology, Documentation, Cross-functional Collaboration, Stakeholder Communication

Tools & Platforms: QGIS, GDAL, PDAL, Oracle VirtualBox, Kali Linux, Windows

Cybersecurity: Wireshark, Nmap, Nessus Essentials

Generative AI: ChatGPT, Gemini, Prompt Engineering

Leadership & Collaboration: Cross-functional Collaboration, Project Coordination, Stakeholder Communication, Teamwork

Professional Skills: Problem Solving, Time Management, Adaptability, Technical Documentation

PROJECTS

Seafloor Bathymetry Modelling

- Developed a bathymetric Digital Elevation Model using ICESat-2 ATL03 and GEBCO data. Used Python and GIS tools to process, integrate, and visualize seabed data for marine archaeology research.

Weather Forecast Application

- Developed a cross-platform weather forecasting application using Flutter with REST API integration. Displayed real-time weather information through a simple and user-friendly interface.

Secure File Storage System

- Developed a secure file storage application using AES encryption to protect local files. Designed a simple web interface for secure file upload and storage.

Password Strength Analyzer

- Developed a Python-based web application to evaluate password strength based on security criteria.Provided users with feedback to encourage stronger password creation.

Web Application Enumeration using DVWA

- Performed web application enumeration using DirBuster and Dirb on DVWA to identify hidden directories and files. Documented findings to understand common web security vulnerabilities.

INTERNSHIP EXPERIENCE

Remote Sensing & GIS Intern | C-DAC Pune

- Worked on geospatial data processing and bathymetry modeling using GIS and satellite datasets. Assisted in technical documentation and research activities for remote sensing projects.

Cybersecurity Virtual Intern | Elevate Labs

- Performed vulnerability assessment exercises and documented security findings. Gained practical exposure to cybersecurity concepts and security analysis.

CyberGyan Virtual Intern | C-DAC Noida

- Completed hands-on training in network security, web security, and cybersecurity fundamentals through practical learning modules.

Data Annotation Intern | Inouora Technologies

- Annotated and validated datasets to ensure data quality and accuracy. Collaborated with the team to deliver annotation tasks within project timelines**.**

CERTIFICATIONS

- Generative AI Fundamentals – GUVI SWATI AI Learnathon
- Claude Code 101 – Anthropic Education
- Claude 101 – Anthropic Education (Ongoing)
- Deloitte Cyber Job Simulation
- Ethical Hacking – NPTEL
- Privacy & Security in Online Social Media – NPTEL
- Computer Networks and Internet Protocol – NPTEL
- Java Programming Fundamentals – Infosys
- Introduction to Cybersecurity Fundamentals – Coursera
- Introduction to Critical Infrastructure Protection – OPSWAT Academy

---

EDUCATION

B.Tech – Information Technology (Honors)

Government College of Engineering, Erode

CGPA: 8.56 | 2022 – 2026

Kendriya Vidyalaya, Vijayanarayanam

HSC – 86.2% | 2021 – 2022

SSLC – 91.6% | 2019 – 2020
