PROFILE

Dedicated and results-driven Full Stack Developer with 1 year of freelance development experience and additional experience as a Technical Trainer. Skilled in Java, React.js, JavaScript, HTML, CSS and MySQL. Capable of delivering clean UI, efficient backend logic, and complete application solutions. Strong in problem-solving, guiding students, and building user-friendly applications.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer (1 Year)

- Developed event systems, ecommerce websites, and custom client applications.
- Built UI, backend logic, and handled full project lifecycle.
- Created features such as authentication, dashboards, and responsive layouts.
- Delivered optimized, maintainable code with smooth client collaboration.

Software Developer Intern - LetNext Technologies

- Assisted in developing and maintaining web applications.
- Worked on frontend modules, fixed UI bugs, and optimized pages.
- Collaborated with developers to implement new features.
- Gained real-time experience in software development workflow and coding standards.

Technical Trainer - Innate

(Trainer for Students)

- Trained students in programming fundamentals and web development.
- Guided students through assignments and projects.
- Conducted code reviews, mentoring, and logic-building sessions.

PROJECTS

- **Event Management System -** Developed a role-based event booking system with dashboards and booking flows using React
- **E-Commerce Website -** Developed product listing, add-to-cart, and user login system using HTML, CSS, JavaScript, React, and MySQL.
- **Concert Booking Website -** Created seat booking and reservation system with modern responsive UI using HTML, CSS, JavaScript, and React.
- **Momo Food Truck Website -** Developed a responsive online ordering platform for a momo-exclusive food truck with menu listings, order form, and mobile-friendly UI.
