PROFESSIONAL SUMMARY

Curious and proactive AI & Data Science student with a strong interest in Machine Learning, Deep Learning, and Artificial Intelligence. Passionate about solving real-world problems through data-driven solutions, quick to learn new technologies, and committed to continuous improvement. Eager to contribute to real-world AI projects while growing in a collaborative, innovation-driven environment.

WORK EXPERIENCE

Data Analyst Intern | June 2024 - July 2024

NeuralArc Global Private Limited

- Created an advanced analysis dashboard in Power BI for tracking interview candidates performance and insights.
- Analyzed and visualized key metrics to streamline recruitment and decision-making processes.

HANDS-ON EXPERIENCE

Superstore Sales Analysis Project

- Developed an interactive Power BI dashboard to analyze superstore sales data, focusing on metrics like total sales, profit, returned orders, and customer segments. Utilized Python (Pandas) for generating actionable insights across regions and product categories.

Vendor Mind— Billing & Invoice Management Software

- Built a full-stack billing software using Next.js, Flask, MySQL, and TailwindCSS with an interactive dashboard featuring revenue analytics, sales overview, low stock alerts, and top-selling product insights.
- Developed Invoice & Inventory Management with GST/IGST tax calculations, PDF generation (ReportLab), payment tracking, and JWT-based role authentication across 30+ RESTful API endpoints.

FounDesk — AI Productivity & Workflow Management Platform

- Developed a full-stack AI-powered service management platform using Next.js, React, TypeScript, Flask, and PostgreSQL, enabling businesses to manage customers, service requests, invoices, and operations through a modern, responsive interface.
- Designed and integrated secure REST APIs for authentication, customer management, billing, inventory, and AI-assisted workflows. Implemented scalable backend architecture with Docker, Redis, and background task processing, while incorporating AI features such as business insights, demand forecasting, and intelligent automation to improve operational efficiency.

RELAVENT SKILLS

- **Data Analytics Tools:** Power BI, MySQL, Python
- **Soft Skills:** Analytical Thinking, Problem Solving, Research Skills
- **Front-end Frameworks:** React JS, Next JS, TailwindCSS
- **Back-End Frameworks:** FastAPI,Django, Node JS, MongoDB
- **AI Tools:** LLM, MCP, Open Claw, Machine Learning, AI Fluency

ACADEMIC HISTORY

B.Tech. in Artificial Intelligence and Data Science

Kgisl Institute of Technology | 2022-2026

ACHIEVEMENTS

- Runner up in the PyEXPO at Kgisl Institute of Technology and won 30000 INR cash prize.
- Co-founded Destiny Dive, a career guidance platform connecting students with colleges and opportunities.
