● CAREER OBJECTIVE

To start my professional journey in a reputed and growth-oriented organization where I can apply my technical skills, learn emerging technologies, and contribute to achieving organizational goals while continuously enhancing my knowledge and expertise in the software industry.

● EDUCATION

Qualification	Institution	Board / Type	Year of Passing	Grade
B. Tech Information Technology	Kongunadu College of Engineering and Technology	Anna University	2027	CGPA: 8.38
Higher Secondary (HSC)	Amala Girls Higher Secondary School	State Board	2023	87%
Secondary School (SSLC)	Amala Girls Higher Secondary School	State Board	2021	—

● PROJECTS

1. Agentic AI System for Ensuring Reliability in Survey Data Analytics

Technologies Used : Python, Machine Learning, NLP
Description : AI-based system that cleans and analyzes survey data by detecting missing values, duplicates, and inconsistencies; automates preprocessing, sentiment analysis, and dynamic report generation to improve data accuracy and decision-making.

2. Predicting Quality of Water Using Optical Detection (IoT-Based Approach)

Technologies Used : Arduino Nano, Laser Diode, Photodiodes, Hardware IoT Architecture
Description : IoT-based system designed and fabricated to monitor water safety indexes through light-scattering analysis, with real-time data processing and visualization for low-cost, high-efficiency detection of suspended particles.

● INTERNSHIP

Full Stack Web Development (Java) Intern – Speculation Infotech
On-site | Internship | June 2025

- Completed end-to-end full stack developer training covering Java enterprise application frameworks, front-end integration, and database management.

● TECHNICAL SKILLS

Programming Languages: Java, Python
Web Development : HTML, CSS, JavaScript
Database : MySQL

● CERTIFICATIONS & COURSES

- Introduction to Internet of Things – NPTEL
- Introduction to Machine Learning – NPTEL
- Core Java – Value Added Course

● HACKATHONS & PAPER PRESENTATIONS

- 24-Hour National Level Hackathon, St. Joseph College of Engineering – Participant
- SPARK-A-THON Hackathon (24 hrs), Coimbatore Institute of Technology – Participant
- Paper Presentation: "Predicting Quality of Water Using Optical Detection," Dhanalakshmi Srinivasan Engineering College
- Paper Presentation: "5G Wireless Technology," K. Ramakrishnan College of Engineering
- Paper Presentation: "Artificial Intelligence," Indra Ganesan College
