PROFESSIONAL SUMMARY

- Full Stack Developer specializing in JavaScript, with experience building and deploying scalable applications using modern libraries and frameworks.
- Skilled in translating wireframes and business requirements into responsive user interfaces and building structured backend systems with controllers, services, middleware, authentication, and validation.
- Focused on building, debugging, and improving applications, with practical use of AI/LLM tools to accelerate development, solve technical challenges, and delivering clean, maintainable, production-ready applications and collaborating effectively across development teams.

SKILLS

Programming Languages:	JavaScript | TypeScript | Java | SQL
Frontend:	HTML5 | CSS3 | React.js | Next.js | Tailwind CSS | Context API | Redux
Backend & Databases:	Node.js | Express.js | MongoDB | PostgreSQL | JSON | REST APIs
Tools & Testing:	Git | GitHub | Postman | Vitest | Browser DevTools
Core Concepts:	OOP | DSA | API Integration | Webhooks | Debugging | Performance Optimization
AI & LLMs:	Gemini API | GitHub Copilot | Ollama | Prompt Engineering

WORK EXPERIENCE

Zidio Development **Bengaluru (Remote)**
Web Developer Intern **Aug 2025 - Oct 2025**

- Built MERN applications with REST APIs and JSON data handling, delivered across 8-week iterative Agile sprint cycles.
- Implemented data visualizations, JWT authentication, CMS functionality, and role-based access controls (RBAC).
- Developed XLSX parsing, Chart.js dashboards, Cloudinary media uploads, and debugged issues.
- Deployed the applications on Render and Vercel with zero code conflicts using Git and GitHub.

PROJECTS

Excel Data Analytics Platform (Internship)
MERN Stack, Tailwind CSS, Claude AI GitHub Link

- Built a dashboard to ingest and parse datasets, with 10 visualizations and automated data workflows.
- Engineered 26 REST API endpoints with JWT authentication and data handling between frontend and backend systems.
- Improved the backend and React.js components using Claude AI, making the code easier to maintain.
- Deployed the application on Vercel and Render, achieved 96 Lighthouse Best Practices and 82 SEO scores.

Full-Stack Ecommerce Platform
MERN Stack, Tailwind CSS, JWT, RBAC, Cloudinary API GitHub Link

- Designed an Express.js backend with 29 REST API endpoints supporting product discovery and cart workflows.
- Improved the dashboard using Context API and React Hooks, achieved a 93 Lighthouse Performance score.
- Integrated Cloudinary API for media storage, improving product image loading and catalogue performance.
- Added mobile-first responsive design using Tailwind CSS breakpoints for phones, tablets, and desktops.

EDUCATION

Saveetha School of Engineering **2021 - 2025**
B.E. Computer Science Engineering **GPA: 8.521**

CERTIFICATIONS

MERN Full Stack Bootcamp | Error Makes Clever **Nov 2025 - Mar 2026**
Advanced Git & GitHub Practices | Coursera **Feb 2025**
Java Fundamentals & Object-Oriented Programming | Coursera **Feb 2025**
