SKIMITAR HINDUSTHAN PVT LTD-SALEM | INTERN

- Completed a 10-day hands-on training on digital marketing
- Gained experience about creating new advertisement templates , Content Creation, Social Media Marketing

TECHNICAL PROJECTS

GPT-enhanced code review platform for programming learning

This project presents a GPT-Enhanced Code Review Platform that automatically analyzes students' source code and provides accurate, personalized feedback to improve programming skills. The system identifies coding errors, suggests best practices, and explains improvements using advanced Large Language Models (LLMs). By delivering instant and learner-friendly code reviews, the platform enhances programming education, code quality, and the overall learning experience.

Interactive Web page Design Using HTML And CSS

This project focuses on designing an interactive and responsive web page using HTML and CSS to create an attractive, user-friendly interface. It demonstrates modern web design principles, ensuring a visually appealing layout, easy navigation, and compatibility across different devices.
