SHARULEKHA G

Java Full Stack Developer

+91 7200677406 | sharulekha23cb@psnacet.edu.in | **GitHub** | **LinkedIn**

Madurai, Tamil Nadu

SUMMARY

Results-driven Java Full Stack Developer with hands-on experience in scalable web and IoT applications using Java, Spring Boot, PostgreSQL, REST APIs, JDBC, SQL, and Git. Strong foundation in OOP, backend development, debugging, CRUD operations, and database management.

EDUCATION

PSNACET 2023 – 2027
B.Tech – Computer Science and Business Systems *CGPA: 7.74*

Velammal Bodhi Campus, Madurai 2022 – 2023
HSC *62%*

Velammal Bodhi Campus, Madurai 2020 – 2021
SSLC *72%*

PROJECTS

Smart Hospital Drive – ESP32, GPS, IoT, Sensors, Cloud Database **GitHub**

- Developed IoT-based smart parking and pothole detection system improving ambulance route safety
- Integrated ESP32, GPS, and cloud database for real-time monitoring
- Improved parking efficiency by 30% using sensor-based automation
- Implemented real-time vehicle tracking and emergency route monitoring

Milk Quality Detection System – ESP32, IoT, Sensors **GitHub**

- Built milk freshness detection system using pH, gas, TDS, and temperature sensors
- Designed automated logic for identifying milk quality and product recommendations
- Integrated sensor data for accurate real-time milk analysis
- Improved food safety monitoring using IoT-based automation

Library Management System – Java, Spring Boot, REST API, PostgreSQL **GitHub**

- Developed full-stack application using Java, Spring Boot, JDBC, REST APIs, and PostgreSQL
- Implemented authentication and CRUD operations handling 100+ records efficiently
- Optimized SQL queries improving backend performance
- Designed RESTful APIs for seamless frontend-backend communication

Cake Shop Standalone Application – Core Java, JDBC, SQL

- Built standalone Java application using OOP concepts and JDBC integration
- Implemented dynamic pricing and product management features
- Developed efficient billing and order handling functionality
- Improved user interaction through simple menu-driven application design

INTERNSHIP

Java Development Intern – Saiket Systems Jul 2025 – Aug 2025
Chennai, Tamil Nadu

- Developed and tested Java applications using OOP, Collections Framework, and Exception Handling
- Debugged and optimized Java code improving application performance and stability
- Worked on backend logic implementation and application testing
- Collaborated with developers to improve code quality and debugging efficiency

Project Management Intern – Biztech Softsys (M) Sdn. Bhd.
Jun 2026 – Jul 2026
Kuala Lumpur, Malaysia(Remote)

- Assisted in project planning, requirement gathering, and project documentation.
- Coordinated meetings, tracked project progress, and supported communication among team members.
- Gained practical exposure to the Software Development Life Cycle (SDLC) and project management processes.
- Worked on task management, project monitoring, and documentation practices.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python (Basic)
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Spring Boot, JDBC, REST APIs
- **Database:** PostgreSQL, SQL
- **Concepts:** OOP, CRUD Operations, SDLC, Collections Framework, Exception Handling
- **Tools:** Git, GitHub, VS Code, Arduino IDE

CERTIFICATIONS

- Full Stack Development – Magizhchi Software
- Database Management – Magizhchi Software
- Python Basics – Infosys Springboard

HACKATHONS

Tech Spectrum '24 – SRM Institute of Science and Technology

- Participated in a national-level technical symposium and collaborated on innovative technical solutions
- Improved teamwork, communication, and technical problem-solving skills through group activities

Tech Tatva 2025 – Maharaja Institute of Technology, Mysore

- Participated in a national-level hackathon focused on solving real-world challenges within limited time constraints
- Collaborated with teammates to develop innovative ideas and practical technical solutions
