CAREER OBJECTIVES

Detail-oriented Electronics and Communication Engineering graduate seeking an entry-level Software Developer role**.** Committed to leveraging robust technical foundations to design and build scalable applications. Eager to collaborate with engineering teams, adopt modern development methodologies, and deliver high-quality technical support to drive system reliability and user satisfaction.

EDUCATION

- **Bachelor of Engineering – Electronics and Communication Engineering**
  KSR Institute for Engineering and Technology, Tiruchengode, *2017 – 2021, CGPA: 7.63*

TECHNICAL SKILLS

- Language: Java, HTML & CSS, JavaScript, Bootstrap
- Database: MySQL, MongoDB
- Frame work: React JS, Express JS, Node JS Framework
- Tools: VS code

PROJECTS

Weather Application

- Developed a React.js application using Create React App and reusable JSX components.
- Practiced dynamic rendering with props, arrays, objects, conditional expressions, and list mapping.
- Implemented interactive form and event-handling examples using input, click, change, focus, and blur events.

Bus Navigation System Using IOT

- Developed an IoT-based bus navigation and tracking system using GPS to provide real-time location updates.
- Integrated GPS data with a cloud server to continuously monitor and update bus locations.
- An IoT-based bus navigation and tracking system uses GPS hardware on buses to send live location data through a cloud server to a user interface or map
- Improved travel convenience by helping users track buses and reduce unnecessary waiting time.

INTERNSHIP & TRAINING

Junior Software Developer Trainee – Vinsys IT Services India Ltd

July 2026 – October 2026

- Gained hands-on experience in Java, MySQL
- Worked with HTML, CSS, JavaScript, and Bootstrap
- Used Git for version control

CERTIFICATIONS

- Junior Software Developer Program Certificate (Ongoing) - TN Skill

---

LANGUAGES KNOWN

- Native: Tamil.
- Intermediate: English
