PROJECTS

FoodieApp – Food Delivery Application

Java, JSP, Servlets, JDBC, MySQL

- Built a full-stack food delivery web application using Java Servlets, JSP, and MySQL, following the DAO design pattern for clean, maintainable code architecture.
- Implemented dynamic restaurant and menu management with CRUD operations, displaying restaurants and menu items using PreparedStatement for secure database queries.
- Designed a responsive UI with HTML/CSS to dynamically render restaurant data, ratings, delivery time, and category-based menu browsing.

TravelMate – AI Travel Recommendation System

- Developed an AI-based travel recommendation web application that suggests destinations based on user preferences such as budget, climate, travel style, and trip duration. Implemented machine learning algorithms (Random Forest, XGBoost, Logistic Regression, and Gradient Boosting) with a Streamlit-based interface to provide personalized travel recommendations and enhance user experience.

INTERNSHIP

Core Java Intern – Emglitz Technologies **June 2024**

Java, OOPS

- Learned and applied Core Java concepts including object-oriented programming principles and basic application logic.

Data Analytics Intern – CSK Education Centre **June 2025**

Excel, SQL

- Worked with Excel and SQL to analyze data, create pivot tables and charts, and visualize datasets using Pandas.

Java FullStack Web Development - TAP ACADEMY **January - August 2026**

Java, MySQL, HTML, CSS

- Learned and applied Java , JDBC, J2EE and created a project of full stack webapplication using DAO design pattern.

Integrated with database using JDBC.

ACHIEVEMENTS

- NPTEL Certified with 83% in Foundations of Cloud, IoT, and Edge ML.
- Recognized as Best Fullstack Developer for my Project by TAP ACADEMY,and the longest Streak Holder.
