PROFESSIONAL SUMMARY

Motivated Machine Learning Engineer and B.Tech (CSE - AI/ML) student (graduating May 2027), currently working as an AI/ML Developer with prior internship experience across 3 additional programs, including a 10-week Google-powered AI/ML virtual internship. Proficient in Python, TensorFlow, PyTorch, Keras, and Hugging Face Transformers, with applied experience in Generative AI and Agentic AI systems. Delivered production-ready models in NLP and computer vision, including a RAG chatbot, a multi-agent AI system, and a mental health risk prediction model. Seeking to grow further as an AI/ML Engineer.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, MATLAB

ML/DL Frameworks: TensorFlow, PyTorch, Keras, Scikit-learn, Hugging Face Transformers

Generative & Agentic AI: LLM Fine-Tuning, Prompt Engineering, RAG Pipelines, LangChain, LangGraph, Multi-Agent Systems, Vector Databases (FAISS/Pinecone)

Libraries & Tools: NumPy, Pandas, OpenCV, NLTK, Matplotlib, Seaborn, Flask, FastAPI, Docker, Git, GitHub

Databases: MySQL, JDBC

Core Concepts: Supervised & Unsupervised Learning, Deep Neural Networks, Transfer Learning, NLP, Model Optimization, Cross-Validation, Hyperparameter Tuning

Developer Tools: Jupyter Notebook, VS Code, Google Colab, Apache NetBeans

INTERNSHIP

AI/ML Developer *Jul '26 - Present*

Cube AI Solution Private Limited — Anantha Nagar, Bangalore, India

- Working on end-to-end AI/ML solution development, including data preprocessing, model building, and evaluation for real-world business use cases.
- Collaborating with the engineering team to build and integrate ML/AI models into production workflows using Python and modern ML frameworks.

AI/ML Virtual Intern *Jan '26 - Mar '26*

EduSkills Foundation (powered by Google) — Remote

- Completed a 10-week AI/ML virtual internship jointly delivered by EduSkills Foundation and Google, applying supervised/unsupervised ML, deep learning, and NLP on real-world datasets.
- Gained exposure to Google Cloud AI services, responsible AI practices, and scalable ML deployment pipelines.

Machine Learning Engineer Intern *Nov '25 - Dec '25*

Cognifyz Technologies Pvt Ltd — Nagpur, India

- Executed 5+ end-to-end ML/DL projects covering preprocessing, training, evaluation, and deployment using Python, TensorFlow, Keras, and Scikit-learn, improving accuracy through hyperparameter tuning and cross-validation.
- Collaborated with senior engineers in an Agile environment to deliver ML components on schedule with version-controlled code via Git.

Core Java Developer Intern *Aug '25 - Oct '25*

UniConverge Technologies Pvt Ltd — Noida, India

- Developed 3+ Java desktop applications applying OOP principles and design patterns with Swing/JDBC-based GUI-database integration; reduced defect count by 30% through systematic testing.

PROJECTS

Enterprise RAG Chatbot

- Built a Retrieval-Augmented Generation (RAG) chatbot for enterprise knowledge search, combining a vector database (FAISS) with an LLM; designed the ingestion/chunking/embedding pipeline and deployed it as a containerized REST API using Docker and FastAPI.

Multi-Agent AI System

- Designed a multi-agent architecture using LangGraph/LangChain (planner, retriever, executor agents) with tool-calling and memory management, improving task-completion accuracy through iterative prompt/workflow design.

Mental Health Score Prediction

- Developed an ML model to predict mental health risk scores from survey/lifestyle data using feature engineering and ensemble methods (Random Forest/XGBoost), handling class imbalance and missing data, with insights visualized via Matplotlib/Seaborn.

EDUCATION

B.E in Computer Science & Engineering *Aug '23 - Present*

Sengunthar Engineering College, India

Higher Secondary Certificate (Class XII) *Jan'21-Jan '23*

R.K.D High School, Rajpur Lakhna, India

CERTIFICATIONS & ACHIEVEMENTS

- Machine Learning using Python — Simplilearn
- Artificial Intelligence & Machine Learning — Reliance Foundation
- Generative AI — SFJ Business Solution Pvt Ltd
- Scored 85% in NPTEL Programming in Java certification exam.
