SUMMARY

B.sc Computer Science student with a strong interest in learning new technologies. I have an basic knowledge in UI/UX design.I am passionate about creating user-friendly and engaging design.I am a quick learner with good teamwork and communictaion skills,seeking an opportunity to apply my knowledge,gain practical experience,and grow professionally.

PROFESSIONAL EXPERIENCE

Internship(IDM tech park)

04/06/2026 - 16/06/2026

Supported the design process by understanding user requirments and developing suitable design solutions.created wireframes,user flows,and prottype using figma.worked on layout,typography,spacing,and visual elements to improve user experience.

Training Program

Gained hands-on experience cloud Architecture, networking and sunetting fundamentals through hands-on projects Earned the AWS certified cloud practitioner certification, validating foundational AWS expertise

Certification

Introduction to AI - Learned the basic concepts of Artificial Intelligence, including how AI works, its applications, and its role in modern technology.

MSME(python basics) - Learned Python programming fundamentals, including variables, data types, operators, conditional statements, loops, functions, and basic coding concepts.

UI/UX Design - Learned the fundamentals of User Interface (UI) and User Experience (UX) design, including wireframing, prototyping, visual design, user-centered design, and basic Figma tools.

EDUCATION

VET Institute of Arts And Science College

06/2024 - present
Erode, India

B.sc Computer Science(77.63)%

Sun Star Matric Higher Secondary School

HSC(68.4%)

Sun Star Matric Higher Secondary School

SSLC(75.33%)

AWARDS

- National athletic Award
- Achieved state level football competitions

PROJECTS

I have Designed a user-friendly event web management using figma
