Web Technologies: HTML, CSS, JavaScript
Databases: MySQL
Tools & Platforms: Git, GitHub, MS Excel
Professional Skills: Problem Solving, Communication, Teamwork, Fast Learner

INTERNSHIP EXPERIENCE

Full Stack Development Intern — Techvolt Software Pvt. Ltd.

- Developed a responsive full-stack web application using HTML, CSS, JavaScript, and MySQL, contributing to feature delivery in a full-stack development environment.

Java Development Intern — UNIQ Technologies

- Built Java-based applications using Core Java, OOP principles, JDBC, and MySQL, gaining hands-on exposure to backend logic and database connectivity.

PROJECTS

Placement Preparation Tracking System | *Java, MySQL*

- Developed a system to track student placement-preparation activities — aptitude, coding practice, communication, and mock interviews — in one centralized view.
- Used Java and MySQL to store student data and generate performance reports, helping students and mentors monitor readiness efficiently.

Public Grievance Tracking and Solution System | *Java, MySQL*

- Built a centralized platform enabling citizens to submit, track, and monitor the status of grievances online.
- Implemented complaint management, status updates, and secure user authentication to improve transparency and turnaround time for grievance resolution.
