TECHNICAL & SOFT SKILLS

- **Cloud Platforms:** AWS (EC2, S3, IAM, Lambda, VPC, RDS)
- **Operating Systems**: Linux (Ubuntu), Windows
- **Programming Languages**: Python, Java, C++
- **Tools & Technologies:** Git, Docker, Terraform, SQL, NoSQL
- **Soft Skills:** Problem-Solving, Teamwork & Collaboration, Communication, Time Management, Adaptability

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Web Development Skilll Vertex
- Communicative English Course (CEFR B1 Level) - Aksent

LANGUAGE

- English
- Tamil
- Urdu

AWARDS

Third place in WEB DESIGN in the Intra-department competition "I-SPARKK in Jamal Mohammad College.

OBJECTIVE

A motivated and detail-oriented MSc IT graduate with a strong foundation in cloud computing. Possess hands-on experience in AWS, Python gained through academic projects and certifications. A quick learner and a collaborative team player, seeking an entry-level position to apply technical skills and contribute to a dynamic team.

EDUCATION

- **MSc Information Technology ,CGPA -8.9** 2023-2025
  Bishop Heber college, Trichy
- **BSc Information Technology, CGPA-8.8** 2020-2023
  Jamal Mohammad College, Trichy
- **HSC, Percentage - 67%** 2019-2020
  Holy Cross Girls' Hr Sec School, Trichy

PROJECT

Project Title: Hosting a Static Website on Amazon S3

- **Situation**:Needed a low-cost, reliable solution to host a static website.
- **Task:** Created an S3 bucket for static hosting, uploaded site files, configured public access, used CloudFront for faster delivery, and set up a custom domain with Route 53.
- **Result:** Website deployed successfully with near-zero cost, 100% uptime, and improved accessibility, demonstrating practical skills in AWS static web hosting.

Project Title: Cloud File Storage System

- **Situation**: Needed a reliable and secure solution to upload, store, and share files in the cloud.
- **Task:** Design and implement a cloud storage system with proper access control, monitoring, and notifications.
- **Result:** Built a secure, monitored, and automated file-sharing system, demonstrating practical skills in AWS storage management, security policies, and cloud monitoring.

Project Title: Garbage Handling App

- **Situation**: Needed a reliable and efficient Android-based system to monitor, manage, and optimize urban waste collection.
- **Task:** Design and implement an Android application for real-time tracking, reporting, and allocation of waste management tasks.
- **Result:** Built a secure, monitored, and automated garbage management app, demonstrating practical skills in Android development, data tracking, process optimization, and real-time monitoring
