SUMMARY

Enthusiastic and quick-learning Computer Science graduate seeking an entry-level opportunity to apply technical, problem-solving, and programming skills in software development and AI-related roles.

EDUCATION

- B.E – Computer Science and Engineering | Nandha Engineering College | Percentage – 70% (2026)
- HSC | Vani Vidyalaya Hr. Sec School | Percentage – 74.5%
- SSLC | Sri Vidhya Sagar Matric School | Percentage – 86.5%

TECHNICAL STRENGTHS

- Programming Languages: Python, Java, C , C++
- Data Structures & Algorithms: Arrays, Strings, Linked Lists
- Computer Vision & AI: OpenCV, TensorFlow, Image Processing, Video Processing, Object Detection, CNN Fundamentals, Model Training & Evaluation
- Libraries: NumPy, Matplotlib, scikit-learn
- Web Technologies/Framework: HTML, CSS & JavaScript (Basics), React, Node.js, Express.js, Flask

PROJECTS

- **Crowd Monitor System with Real-Time Alerts –** Developed a real-time computer vision system to estimate crowd density from video feeds using OpenCV. The system triggers automated alerts during overcrowding scenarios and recommends alternate routes, enabling safer and efficient crowd management.
  Technologies Used: OpenCV, Python, Flask, Telegram API.

- **AI-Based Fitness Tracking –** A mobile application that provides personalized fitness monitoring by analyzing body metrics such as BMI and fat percentage using AI models. It helps users track their health progress and receive tailored insights for better fitness management.
  Technologies Used: Python, TensorFlow, React Native**.**

CERTIFICATIONS

- Azure AI Fundamentals: Computer Vision
- Google Analytics Certification
- TATA GROUP-GenAI Powered Data Analytics Job Simulation
- Computer Vision & Image Processing Specialization

RESEARCH & PUBLICATIONS

CrowdGuardAI: Smart Crowd Monitoring with Zone-Based Re-routing

- Presented at ICSSAS 2026 and published in IEEE Conference Proceedings.
- Published as an Indian Patent (Application No. 202541120357 A).
- Developed using YOLOv8, Computer Vision, and AI-based crowd analytics.
