PROFESSIONAL SUMMARY

Information Technology student (B.Tech, graduating 2027) with a solid foundation in programming (C, Java, Python, SQL) and web development (HTML5, CSS3, JavaScript). Hands-on project experience building responsive web applications and a task management system, an AI/ML virtual internship, and coursework in software project management. Strong analytical and problem-solving skills, a fast learner, and an effective communicator, seeking a Technology Program Internship to contribute to real engineering initiatives while deepening technical and software-development-lifecycle expertise.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, SQL

Web Development: HTML5, CSS3, JavaScript

Database: SQL, DBMS

Tools & IDE: VS Code, Git, GitHub, Figma, Canva, HackerRank

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Adaptability

PROJECTS

Task Management System *Java, HTML5, CSS3, JavaScript, SQL* | 2026

- Designed and developed a web-based task management application enabling users to create, assign, prioritize, and track tasks through to completion.
- Implemented features for task status updates (To-Do, In Progress, Completed), due-date tracking, and category-based filtering to improve team productivity.
- Built a relational database schema (SQL) to persist users, tasks, and status history, and integrated it with the front end for real-time updates.
- Applied core software project management concepts (planning, task breakdown, milestone tracking) learned through coursework to structure development.

Personal Portfolio Website *HTML5, CSS3, JavaScript* | 2025

- Designed and built a fully responsive personal portfolio site to showcase projects, technical skills, and contact details, applying semantic HTML5 and CSS3 layout techniques.
- Implemented interactive UI elements with JavaScript to improve navigation and user engagement.

E-Commerce Website *HTML5, CSS3, JavaScript* | 2026

- Built a responsive e-commerce web application with product listings, category navigation, and an interactive shopping interface.
- Followed a structured development approach - planning, coding, and testing - to deliver a functional, user-friendly interface end-to-end.

SmartPOS – Billing and Inventory Management System *HTML, CSS, JavaScript*

- Designed and developed a Point of Sale (POS) and Inventory Management System using HTML, CSS, and JavaScript.
- Implemented modules for billing, product inventory, stock management, and sales tracking with an intuitive user interface.

INTERNSHIP

Google AI-ML Virtual Internship - EduSkills

- Completed a virtual internship covering AI and Machine Learning fundamentals through structured assignments and practical assessments.
- Applied analytical and problem-solving skills to guided, real-world AI/ML use cases.

EDUCATION

B.Tech - Information Technology 2023 - 2027
Sri Shanmugha College of Engineering and Technology, Pullipalayam | CGPA: 7.8

Higher Secondary Certificate (HSC) 2022 - 2023
Government HR Secondary School, Ulagampalayam, Namakkal | Percentage: 70%

CERTIFICATIONS

- AICTE - Google AI-ML Virtual Internship
- Software Project Management - NPTEL

ACHIEVEMENTS & ACTIVITIES

- Participated in technical workshops on web development and emerging technologies (workshop certificate available).

LANGUAGES

Tamil, English
