SUMMARY

Computer Science Engineering student with hands-on experience in **Python, automation, AI, and software development**. Skilled in building API-driven applications using **Python, Flask, REST APIs, SQL, React, Next.js, and TypeScript**. Strong foundation in **OOP, software architecture, debugging, problem solving, and Git**.

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript, TypeScript
Software Development: OOP, Software Development, Software Architecture, REST APIs, Automation, Debugging
AI and ML: Machine Learning, NLP, TF-IDF, ONNX Runtime, AI Applications
Web Technologies: HTML, CSS, React, Next.js, Flask, Streamlit, Tailwind CSS
Database: SQL, MySQL, SQLite, Supabase
Tools: Git, GitHub, VS Code, Excel

EDUCATION

B.E. Computer Science and Engineering 2023–2027
KIT – Kalaignar Karunanidhi Institute of Technology, Coimbatore
CGPA: **7.2** — HSC: **73.5%**
Relevant Coursework: Data Structures, OOP, DBMS, Software Engineering

INTERNSHIP EXPERIENCE

Full Stack Development Intern Jun 2025
LearnLogicify Technologies

- Completed a 4-week internship focused on frontend, backend, database integration, and responsive web development.
- Gained practical experience in software development workflows, application design, debugging, and database integration.

PROJECTS

Global Platform Score Tracker GitHub
Python — Flask — REST APIs — SQLite — Excel

- Developed a Python automation platform to collect and synchronize coding statistics from multiple external platforms.
- Implemented REST API integration, automated data processing, SQLite operations, authentication, and Excel report generation.

Intelligent Hiring Recommendation System GitHub
Python — NLP — Streamlit — TF-IDF — ONNX Runtime

- Developed an AI application that extracts technical skills from resumes and recommends suitable job roles.
- Implemented NLP preprocessing, TF-IDF feature extraction, and ONNX model inference for automated recommendations.

Interview Practice Portal GitHub
Next.js — TypeScript — Supabase — Tailwind CSS

- Built a full-stack platform with authentication, resume analysis, coding assessments, and performance tracking.
- Developed reusable components, protected routes, database-backed services, and AI-based interview features.

CERTIFICATIONS

- **AWS AI Practitioner** – Jun 2026
- **AgentForce Specialist – Salesforce** – Dec 2025
- **Learn Python Programming – CodeChef Pro** – Sep 2025
- **Getting Started with Microsoft Excel – Coursera** – Jul 2025

ACHIEVEMENTS

- Ranked **Top 50** in a 24-Hour Hackathon.
- Participated in a **36-Hour Hackathon**.
- Active problem solver on **LeetCode, CodeChef, Codeforces, and AtCoder**.

ADDITIONAL DETAILS

Languages: Tamil, English
Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management
