PROFESSIONAL SUMMARY:

Data Engineer with hands-on experience in data analytics, business intelligence, and cloud-based data engineering. Skilled in SQL, Power BI, Python, and Azure technologies for data analysis, reporting, and ETL/ELT (Extract, Transform, Load / Extract, Load, Transform) workflows. Experienced in data cleaning, transformation, dashboard development, and preparing analytics-ready datasets to support business reporting and decision-making. Seeking opportunities in Data Analyst and Data Engineer roles.

TECHNICAL SKILLS:

Data Analytics & Visualization: Power BI, DAX, Advanced SQL, KPI Reporting, Dashboard Development, Data Visualization.
Programming & Analytics: Python**,** PySpark**,** Pandas
Databases & Cloud: Databricks**,** Azure Data Factory**,** Data Lake Storage**,** Delta Lake**,** Unity Catalog.
Data Analytics Concepts: ETL/ELT Pipelines**,** Data Warehousing**,** Medallion Architecture, Data Modeling

PROFESSIONAL EXPERIENCE:

Data Engineer - Teleperformance Sep 2025 – May 2026

- Supported Azure-based ETL/ELT (Extract, Transform, Load / Extract, Load, Transform) workflows using Azure Data Factory (ADF), Azure Databricks, SQL, Python, and PySpark while working closely with senior data engineers.
- Monitored 50+ scheduled Azure Databricks jobs, reviewed execution status, identified failures, and supported daily production data processing.
- Supported the development and maintenance of reporting datasets for contact center analytics using Azure Databricks, Delta Lake, and PySpark, processing data from over 20 operational tables, including agents, calls, queues, and customer interactions.
- Wrote optimized SQL queries to analyze large datasets for business reporting and collaborated with business analysts to gather reporting requirements and prepare analytics-ready datasets.

PROJECTS:

Profit and Sales Dashboard:

- **Technologies**: Power BI, SQL, Power Query, DAX
- Developed an interactive Power BI dashboard to analyze sales trends, regional performance, and profit margins. Created interactive reports and KPI dashboards for business performance tracking. Used SQL queries for data extraction, transformation, and analytical reporting.

AI & Data Jobs Market Insights Dashboard:

- **Technologies**: Power BI, SQL, Power Query, DAX
- Developed an interactive Power BI dashboard to analyze AI and data job market trends. Performed data cleaning, transformation, and modeling using Power Query and DAX, and created KPIs and interactive visualizations to analyze salary trends, job demand, required skills, and hiring patterns across experience levels, employment types, education, and locations.

CERTIFICATIONS:

- Databricks Fundamentals | **Databricks (2026)**
- AI Fundamentals | **Google (2026)**
- SQL Problem Solving | **HackerRank (2024)**
- Basics of Python | **Infosys Springboard (2024)**
- Genesys Cloud Professional Certificate | **Genesys (2025)**

EDUCATION:

Sona College of Technology 2021 - 2025
B.E. Electronics and Communication Engineering 8.08 CGPA
