INTERNSHIP EXPERIENCE

Financial Analytics & Business Intelligence Intern — Pulesoft Technology *Dec 2025 – Jan 2026*

- Analyzed financial datasets using Excel and Power BI to generate actionable business intelligence reports for internal stakeholders.
- Built interactive BI dashboards to track key financial KPIs such as revenue trends, expense ratios, and profit margins across departments.
- Collaborated with the analytics team to clean, transform, and validate raw financial data, ensuring accuracy and consistency in reporting outputs.
- Presented data-driven findings to senior team members, supporting strategic business decisions through clear visual storytelling and summarized insights.

PROJECT

Financial Analytics & Business Intelligence Dashboard
Excel · Power BI · Data Modeling

- Designed a comprehensive financial analytics dashboard by ingesting multi-source data (sales, expenses, revenue) and structuring it into a unified Power BI data model.
- Applied DAX formulas and calculated measures to automate KPI computation — including gross margin, YoY growth, and budget variance — eliminating manual calculation effort.
- Delivered interactive drill-down visualizations (waterfall charts, trend lines, slicers) enabling stakeholders to explore financial performance across time periods and business units.
