PROFILE

As a dedicated and ambitious Artificial Intelligence and Data Science student, I am eager to enhance my professional skills in a dynamic and forward-thinking workplace. I seek challenging positions that allow me to apply my problem-solving abilities and technical expertise to contribute to the company's success and innovation in the field of AI and Data Science.

EDUCATION

B.Tech Artificial Intelligence & Data Science 2022 - 2026
Kumaraguru college of Technology
GPA: 8.25

HSE|M.N.S Govt Girls Hr.Sec.School 2021 - 2022
%: 85.8

SSLC|M.N.S Govt Girls Hr.Sec.School 2019 - 2020
%: 83.2

PROJECTS

MediBot – Medical Q&A Chatbot

Developed a medical assistance chatbot capable of answering health-related queries using context-aware responses. Integrated Retrieval-Augmented Generation (RAG) to enhance answer accuracy by combining language models with external knowledge sources. Implemented a PHQ-9 depression assessment module for basic mental health screening.

Technologies Used: *Transformers, LangChain, RAG, Python, NLP, Embeddings*

Image Classification Using CNN with Transfer Learning

Built an image classification system using Convolutional Neural Networks (CNN) with transfer learning techniques. Trained and evaluated multiple pre-trained models on the CIFAR-10 dataset, improving performance through data augmentation and optimization strategies.

Technologies Used: *ResNet50, VGG16, EfficientNetB0, TensorFlow/Keras, Python*

ACHIEVEMENT

Received Mahatma Gandhi Merit Scholarship for the first academic year.
