CAREER OBJECTIVE

Final-year Electronics and Communication Engineering student with strong fundamentals in digital design, VLSI concepts, and hardware description languages. Seeking an entry-level hardware engineering role to apply hands-on circuit analysis skills and contribute to innovative chip design projects.

EDUCATION

2024-2027
Anna University

Bachelor of Engineering
Electronics and Communication Engineering
The kavery engineering college, Mecheri ,Salem
CGPA -7.8 (Upto Semester 6)

2021–2024
DOTE

Diploma in Electronics and Communication Engineering
The kavery Polytechnic College, Mecheri, Salem
overall percentage (82%)

2018

State Board (SSLC)
The Government Higher Secondary School, Panangattur (58%)

TECHNICAL SKILLSET

HARDWARE: EMBEDDED AND IOT : Arduino, ESP32, Sensors, IoT Communication, trouble shooting and hardware debugging , PLC Concepts

PROGRAMMING : Python, Verilog , Embedded C , C Programming, Java

INTERNSHIP

Emglitz Technology

Embedded Design Engineer Intern |
Emglitz Technologies, Salem
Duration: [25.05.2026] – [25.06,2026]

- Assisted in designing and testing microcontroller-based embedded system hardware and sensor interfacing modules.

Projects

- IOT BASED FIRE ALERT SYETEM USING ARDUINO MICROCONTROLLER
- REAL TIME TRAFFIC LIGHT CONTROL SYSTEM USING ARDUINO MICROCONTROLLER

WORKSHOPS & SEMINAR

Worshop: High performancs system design using EDA Tools **(Cadence , VIVADO) -** Mahendra Engineering College

SEMINAR : Presenter – "Nanotechnology in VLSI Design" Researched and presented key developments in integrating nanoscale materials - The Kavery Engineering College

LANGUAGE

English : Fluent
Tamil : Native
