## SKILLS

**Testing:**

- Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, End-to-End (E2E) Testing, Exploratory Testing, UI Testing API Testing - Postman (Request & Response Validation).

**Test Management:**

- Test Case Creation & Execution, Test Scenario Preparation, Test Data Preparation, Defect Reporting & Tracking.

**Automation Testing:**

- Basic Web Automation using Playwright with JavaScript, Locators, Assertions, Waits, Page Object Model (POM)

**Programming Language:**

- JavaScript (Basic), C.

**Defect Management:**

- Jira – Bug Reporting, Tracking, Retesting, Severity/Priority Classification.

**Methodology:**

- Waterfall, Agile, SDLC, STLC.

**Testing Areas:**

- Web Application Testing, Web Portal Testing.

**Certifications:**

- Playwright Automation.
- Jira.

## PROFILE

Test Engineer with 1 year of experience primarily in Manual Testing, with hands-on experience in Functional, Regression, Smoke, Sanity, Integration, and End-to-End (E2E) testing. Skilled in creating and executing test cases, identifying and tracking defects using Jira, and performing API testing using Postman. Have basic hands-on experience in web automation testing using Playwright with JavaScript, including locators, assertions, waits, and Page Object Model (POM). Strong understanding of STLC, Agile methodologies, and software quality practices, with good analytical and problem-solving skills and a willingness to learn and grow in automation testing.

## WORK EXPERIENCE

**Integrum Global Pvt Ltd:** **Aug 2023 - July 2024**

**Project: Logistics & Distribution Management System**
**Clients: Boonrawd (Thailand) & A21 (Singapore)**

- Performed **manual and Automation testing** including Functional, Regression, Smoke, Sanity, Integration, and End-to-End (E2E) testing.
- Created and executed test cases, test scenarios, and test data based on business requirements.
- Identified, logged, tracked, and verified defects using **Jira** and collaborated with developers for resolution.
- Performed **API testing using Postman** to validate request and response behavior.
- Performed basic web automation testing using Playwright with JavaScript, working with locators, assertions, waits, and basic POM concepts.
- Participated in Agile Scrum ceremonies such as sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Collaborated with developers and business analysts to understand requirements and ensure quality software delivery for clients in Thailand (Boonrawd) and Singapore (A21).
- Prepared test execution reports and test status updates and communicated defects and testing progress to stakeholders.
