

VISWESWARAN P

B.TECH ARTIFICIAL INTELLIGENCE & DATA SCIENCE STUDENT

9487823299 vichuvisweswaran82@gmail.com No 9/42,Vellanallampalayam,Thaneerpandalpalayam, Tiruchengodu,Namakkal,Tamilnadu-637304

Education

B.Tech – Artificial Intelligence & Data Science
Sri Shanmugha College of Engineering and Technology
2024 – Present

Higher Secondary Education (12th)
SKV Matriculation Higher Secondary School
2024

Secondary Education (10th)
SKV Matriculation Higher Secondary School
2022

Certifications

- FEMORA – Smart Women's Health Monitoring System
- Trinity College of London – Grade 3, Guitar & Keyboard
- Western Guitar Music – 77/100
- Carnatic Vocal & Keyboard – 4th Degree with Distinction
- Diploma in Computer Applications (DCA)
- Programming in C & C++
- Office Automation
- Computer Basics
- Typewriting – English & Tamil with Distinction

About me

Motivated and creative B.Tech Artificial Intelligence & Data Science student with a strong interest in Artificial Intelligence, software development, UI/UX design, and emerging technologies. Hands-on experience through academic and real-world projects involving AI, IoT, healthcare technology, 3D visualization, and service-based applications. Passionate about learning new technologies, solving real-world problems, and creating user-friendly digital solutions.

Experience

AI Tutor – AI-Powered Learning Assistant

AI / EdTech Project

- Developed an AI-powered learning assistant designed to provide personalized educational support.
- Implemented AI-based question answering and concept explanation features.
- Designed an interactive and user-friendly learning interface.
- Explored prompt engineering and AI integration for educational applications.
- Focused on improving the learning experience through conversational AI.

Technologies: AI, Prompt Engineering, Web Technologies

FEMORA – Smart Women's Health Monitoring System

IoT & AI-Based Healthcare Project

- Developed an IoT-enabled system for real-time health monitoring.
- Used ESP32 with sensors for collecting health-related data.
- Integrated MAX30102 for heart rate and SpO_2 monitoring.
- Used GSR for stress-related monitoring and temperature sensing for BBT tracking.
- Integrated Firebase Realtime Database for storing and retrieving sensor data.
- Worked on data analysis and visualization through a dashboard.
- Designed a mobile-friendly healthcare application interface.
- Technologies: ESP32, IoT, Firebase, Python, Streamlit, JavaScript

TECHNICAL SKILLS

- Languages: Java, JavaScript, Python
- Development: React, React Native, HTML, CSS
- AI: Artificial Intelligence, Prompt Engineering, Generative AI
- Cloud: Firebase, Google Cloud
- 3D/Medical: Three.js, DICOM, CBCT
- Design: UI/UX, Prototyping

SOFT SKILLS

- Communication
- Teamwork
- Problem Solving
- Creative Thinking
- Adaptability

ACHIEVEMENTS & ACTIVITIES

- Carnatic Vocal & Keyboard – 4th Degree with Distinction
- Western Guitar Music – 77/100
- Typewriting – English & Tamil with Distinction

LANGUAGES

- Tamil – Native
- English – Professional Working Proficiency

Vinayaga Automation – DICOM / CBCT Scan Center Automation

Healthcare Technology Project

- Worked on a digital automation solution for DICOM and CBCT scan centers.
- Developed concepts for viewing and interacting with 3D medical scan data.
- Explored Cornerstone.js and Three.js for medical image and 3D visualization.
- Designed workflows for managing scan-center operations.
- Worked with different DICOM/CBCT data formats and visualization requirements.
- Focused on creating a modern and efficient user interface.
- Technologies: React, Three.js, Cornerstone.js, Firebase, Google Cloud Storage

Urban Helpers – Service & Vendor Management Platform

Service Marketplace Application

- Worked on customer and vendor application concepts for service-based businesses.
- Designed customer service booking and vendor management workflows.
- Implemented concepts for customer location mapping and vendor tracking.
- Designed a coin/reward system where users can earn and redeem coins for services or products.
- Created UI screens and user flows for both customer and vendor applications.
- Worked on application prototyping and requirement analysis.
- Technologies: React, UI/UX Design, Firebase, Maps Integration

CAREER OBJECTIVE

To build a successful career in the technology industry by applying my knowledge of Artificial Intelligence, Data Science, software development, and UI/UX design. I aim to contribute to innovative projects, solve real-world problems, and continuously develop my technical and professional skills.
