SURYA MOHAN

Entry-Level Data Analyst | SQL Developer | Power BI
Chennai, Tamil Nadu | +91 6385694922 | suryamohanmca@gmail.com | linkedin.com/in/sur06

PROFESSIONAL SUMMARY

MCA graduate with hands-on project experience in SQL, PL/SQL, Oracle, MySQL, MongoDB, Power BI, Excel and Python. Skilled in writing SQL queries using joins, subqueries and aggregate functions, developing database objects, performing data analysis and creating interactive dashboards. Experienced in academic projects involving relational database design, data validation, reporting and automation. Seeking an entry-level Data Analyst, SQL Developer or BI Analyst position.

TECHNICAL SKILLS

Databases: Oracle SQL, MySQL, MongoDB, SQL*Plus

SQL / PL/SQL: DDL, DML, DCL, TCL, Joins, Subqueries, Aggregate Functions, Views, Indexes, Stored Procedures, Functions, Triggers, Cursors, Exception Handling

Data Analysis: Data Cleaning, Data Validation, Data Analysis, Reporting

Power BI: Interactive Dashboards, Bar/Line/Pie Charts, KPI Cards, Basic DAX Measures

Excel: Pivot Tables, VLOOKUP, INDEX-MATCH, Conditional Formatting, Charts

Programming: Python, Pandas, Matplotlib

PROJECT EXPERIENCE

Employee Management System

Technologies: Oracle SQL, PL/SQL

- Designed a relational database consisting of 5+ tables, including Employee and Department, to manage workforcedata.
- Developed 20+ SQL queries using joins, subqueries and aggregate functions for employee and workforce reporting.
- Created stored procedures, functions, triggers and views to automate data processing and validation.
- Generated salary and attendance reports to support administrative analysis and decision-making.
- Applied database constraints and validation rules to maintain data consistency and integrity.

Student Database Management System

Technologies: Oracle SQL, SQL*Plus, PL/SQL

- Designed a relational database to manage student and academic records with complete CRUD operations.
- Developed PL/SQL procedures and cursors to process records and generate required results.
- Used SQL*Plus scripts to automate database object creation and execution.
- Implemented constraints and validation rules to maintain data accuracy and integrity.
- Practiced tables, views, procedures, functions and data manipulation operations.

CERTIFICATION

Data Analysis Certification | Tech Data Community (TDC) | January 2026 – May 2026

Hands-on training in Oracle SQL, PL/SQL, SQL*Plus, MongoDB, Power BI, Excel and Data Analysis.

AI Tools Mastery Course | Tech Data Community (TDC) | April 1 – May 5, 2026
Certificate of Completion issued by course instructor Praveen Kalimuthu.

EDUCATION

- Master of Computer Applications (MCA) | Srinivasan College of Arts and Science, Bharathidasan University | 2026 | 74%
- B.Sc. Mathematics | Arignar Anna Govt Arts College, Bharathidasan University | 2024 | 73%

CAREER INTERESTS

Data Analyst | SQL Developer | BI Analyst | Database Developer | Junior Data Engineer
