Summary

Motivated and detail-oriented Computer Science Engineering graduate with knowledge of Java, Springboot, HTML, CSS, Javascript, SQL and REST APIs. Completed a Java Full Stack Internship and developed academic projects with hands on experience in web application development . Seeking an entry level Java FullStack Developer role to apply my technical skills, learn new technologies and contribute to organizational success.

Education

B.E. Computer Science and Engineering **2022 - 2026**
Mahendra College of Engineering, Salem *CGPA: 8.65 / 10*

Higher Secondary **2021 - 2022**
Municipal Girls Higher Secondary School, Salem *Percentage: 90*

Secondary School **2019 - 2020**
Municipal Girls Higher Secondary School, Salem *Percentage: 87*

Skills

Programming Language: Java
Frontend: HTML, CSS, javascript,React JS
Backend and Database: Spring Boot, REST API, SQL
Tools and Version Control: Postman, Git, GitHub, Eclipse, VS code

Internship

Full stack web development internship **August 2024**
Techvolt software private limited,Coimbatore *Concept: Full Stack web development*

- Completed a comprehensive **offline internship** focused on **Full stack web development**
- Gained hands-on experience in developed responsive and mobile friendly web pages using **HTML** and **CSS**
- Implemented interactive UI features using **JAVASCRIPT** to enhance user experience and engagement
- Applied **strong problem-solving** and **debugging skills** to optimize performance and enhance user experience.
- Demonstrated **quick learning ability and adaptability** by exploring new tools and technologies independently

Project

BookSky | *HTML, CSS, JavaScript* **Sept 2025 – Oct 2025**

- Designed and developed an interactive **Book management web application** using javascript for dynamic content handling.
- Implemented **CRUD functionality** such as add and delete books.
- Built a **clean and responsive user interface** using **HTML 5** and **CSS 3** to improve usability across devices.
- Utilized **DOM manipulation and event handling** to manage book entries efficiently.

Course Registration System | *JAVA, Springboot, Postgresql, HTML, CSS, JavaScript* **Mar 2026**

- Designed and developed a web based **Course Registration System**
- The application allows user to view available course such as **Course ID , course name,trainer and duration**
- Students can register for the course and system also displays enrolled student details.
- Implemented **RESt APIs using springboot and tested them using postman and postgresql used for backend storage**

Certifications

- **Digital SKills Readliness Program -JAVA full Stack— Wipro TalentNext (2025):** Successfully completed the three months Java Full stack training program and gained knowledge through hands on training.
- **Paper presentation ICOST(2025):**Presented a research paper on Neural Networks and Brain-Computer Interfaces using Deep Learning at the international Conference
- **GNAN WHIZKID (2023):** Participated in the code debugging event at the National Level Technical Symposium, demonstrating programming and problem solving skills

Areas of interest

- Java full stack Development
- Backend Development(Spring Boot , REST APIs
- Web Application Development
- Database Management
