PRAVEEN L R

Full-Stack Developer

praveen12rangasamy@gmail.com +91 8807847427 praveen12rangasamy-lgtm LinkedIn

Professional Summary

Driven and detail-oriented Full-Stack Developer with hands-on experience in building scalable web and cross-platform mobile applications. Proficient in frontend technologies such as ReactJS, HTML5, CSS3, and JavaScript, alongside backend API integration, database management (DBMS, SQL), and mobile app development using Flutter and Dart. Demonstrated expertise in delivering production-ready platforms during software development internships. Adept at transforming business requirements into performant, user-centric software solutions through clean code, proactive problem-solving, and continuous technical improvement.

Technical Skills

Programming Languages: C, Java, SQL, JavaScript (ES6+).

Web Technologies: HTML5, CSS3, JavaScript, React.js.

Mobile Development: Flutter, Dart, Cross-Platform UI/UX Optimization, State Management

Databases & Tools: MySQL, PostgreSQL, Supabase, Relational Database Management Systems (RDBMS), Git, GitHub, Vercel

Core Concepts: Data Structures, Object-Oriented Programming (OOP), Software Engineering,

Professional Experience

Full Stack Development Intern **3 Months**

GRADIX

- Spearheaded the end-to-end full-stack development life cycle for multi-industry client platforms including **Raga Boutique**, **Vetri Stores**, and **Knotnex**.
- Architected and integrated robust **RESTful backend APIs**, seamlessly connecting backend databases with dynamic web interfaces to ensure secure data exchange.
- Collaborated closely with cross-functional UI/UX design teams to refine interface wireframes into high-performance, accessible client-side code.
- Optimized asset loading, network request payload sizes, and asynchronous API calls, which directly improved client platform page load speeds by **20%**.
- Implemented rigorous testing and debugging routines across various screen sizes and web browsers to guarantee high visual consistency and functional responsiveness.

Web Development Intern **1 Month**

MARABANU

- Engineered key operational modules for the **VyaraHR SaaS tool**, an automated employee lifecycle and HR management solution.
- Developed modular frontend components using modern JavaScript frameworks to automate administrative tasks such as digital onboarding and record tracking.
- Structured optimized RESTful API service layers on the frontend to handle concurrent requests and streamline client-server data flow.
- Implemented responsive web layouts using flexbox, grid systems, and mobile-first design principles, ensuring a smooth user experience on mobile and desktop platforms.
- Participated in code reviews, daily stand-ups, and sprint planning sessions, contributing clean, well-documented code adhering to team standards.

Technical Projects

Knotnex – Cross-Platform Mobile Application

Technologies: Flutter, Dart, REST APIs, State Management, Git

- Designed and engineered a seamless, cross-platform mobile application supporting interactive features and responsive layouts across iOS and Android platforms.
- Employed advanced Flutter state management techniques to isolate state changes, reducing cross-device UI rendering latency by **25%**.
- Implemented real-time data streaming features over websockets/HTTP streams, maintaining smooth data transmission for **100+ simultaneous active user sessions**.
- Structured clean architecture separating business logic (BLoC/Provider) from presentational widgets, making the application codebase scalable and maintainable.

VyaraHR – Human Resource Management System

Technologies: React.js, Supabase, PostgreSQL, Tailwind CSS, Vercel, Git, REST APIs

- Developed a cloud-based HR SaaS platform deployed on Vercel to digitize workforce management and streamline daily HR operations for SMEs.
- Implemented robust authentication and Role-Based Access Control (RBAC) using Supabase, securing sensitive employee records, payroll data, and administrative workflows.
- Built responsive, modular frontend views with React.js and Tailwind CSS, featuring Employee Self-Service (ESS) portals for profile management, leave requests, and attendance tracking.
- Centralized data operations using PostgreSQL to automate payroll calculations, dynamic attendance logs, and graphical employee performance analytics, reducing manual administrative processing time.
- Delivered **5 customizable module workflows** after conducting competitive analyses, streamlining client onboarding efficiency and data accessibility.

Education

K.S. Rangasamy College of Technology **Jan 2024 – Jan 2028**

Bachelor of Technology (B.Tech) in Information Technology *Tamil Nadu, India*

- **Academic Performance:** CGPA 8.14 / 10.0 (4th Semester)

Kamaraj Matric Higher Secondary School **Jan 2023 – Jan 2024**

Higher Secondary Certificate (12th Grade) *Nambiyur, Tamil Nadu*

- **Score:** 81.3%

Kamaraj Matric Higher Secondary School **Jan 2021 – Jan 2022**

Secondary School Leaving Certificate (10th Grade) *Nambiyur, Tamil Nadu*

- **Score:** 74.8%

Certifications

- **NPTEL Online Certifications:** Affective Computing (HCI & Behavioral AI Modeling); Privacy and Security in Online Social Media (Data Privacy Laws & Protocols).
- **LinkedIn Learning Certification:** Java Fundamentals – Core object-oriented concepts, syntax, and memory management.
- **LinkedIn Learning Certification:** Data Structures in Java – Implementation of linear and non-linear data structures, algorithms, and complexity analysis.
