Puducherry|7603960755 | mr.sudhakar507@gmail.com | linkedin.com/in/sudhakar-s13 | github.com/Sudhakar-sk13

PROFESSIONAL SUMMARY

Recent Information Technology graduate and full-stack developer with hands-on experience building responsive web applications using React.js, Angular, Node.js, Express.js, and MongoDB. Comfortable working end-to-end — from designing REST APIs and MongoDB schemas to building accessible, polished UIs with Tailwind CSS. Currently deepening backend skills in Java and Spring Boot. Strong fundamentals in JavaScript (ES6+), Git-based workflows, and API testing with Postman. Seeking a full-time Software Engineer role to contribute and grow as part of an engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java (fundamentals)

Frontend: React.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Design & Integration

Database: MongoDB, MySQL

Tools & Workflow: Git, GitHub, VS Code, Postman, Vite

PROJECTS

Agri-Business Portal | Full-Stack Web Application *Apr 2026*

Angular, Node.js, Express.js, MongoDB, JavaScript

- Designed and built a full-stack agricultural marketplace connecting farmers directly with consumers, eliminating intermediaries through role-based farmer and consumer modules covering registration, authentication, and dashboards.
- Built RESTful APIs in Node.js/Express to handle CRUD operations for users, products, and orders, and integrated them with Angular services to drive live data through the UI end-to-end.
- Designed a normalized MongoDB schema across users, products, and orders collections to keep inventory and order data consistent as farmers update stock in real time.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer Intern — Kaashiv Infotech, Chennai *Nov 2025 – Dec 2025*

- Built a responsive, secure login interface in React using functional components and hooks (useState) to manage multi-field form state, including password show/hide and remember-me persistence.
- Implemented client-side validation and submission handling with real-time feedback, catching malformed input before it reached the backend.
- Designed a glassmorphic UI with animated background visuals using Tailwind CSS, and configured Vite to run the project's development, build, and preview workflow.

EDUCATION

B.Tech, Information Technology *2022 – 2026*

RAAK College of Engineering and Technology, Puducherry | CGPA: 7.0/10

CERTIFICATIONS

HTML & CSS, JavaScript, and MySQL — GUVI Geek Networks *Dec 2025*
