PROFESSIONAL SUMMARY

- Medical Records Analyst with 1+ year of experience in healthcare documentation, records review, data management, and quality assurance
- M.Sc Biotechnology graduate with research experience, publications, and knowledge of systems biology, microbiology, and data analysis
- Strong analytical and attention-to-detail skills, experienced in handling high-volume documentation accurately and confidentially while meeting deadlines and maintaining process standards

PROFESSIONAL EXPERIENCE

Medical Records Analyst
Preludesys
07/2022 – 08/2023 | Chennai, India

- Reviewed and analyzed medical records with 97% quality accuracy
- Managed high-volume healthcare documentation with 99% quality
- Coordinated legal documentation with 100% on-time delivery
- Maintained data accuracy, confidentiality, and compliance

Intern
Acme ProGen Biotech
06/2019 – 07/2019 | Salem

- Supported laboratory documentation and research reporting
- Compiled research data and scientific documentation

EDUCATION

Master of Science, Biotechnology
Vellore University of Technology
2018 – 2020
CGPA - 8.45

AWARDS

Best team of the 3rd quarter of FY 2022-2023, Preludesys Pvt Ltd
2022

Sports Icon of the Year'18 (UNDERGRADUATE)
2018

First place, Volleyball DIOCESE tournament
2013

Third place, South zonal level (volleyball)
2013

CORE COMPETENCIES

- Medical Records Analysis & Data Management
- Healthcare Documentation & Review
- Quality Assurance & Process Accuracy
- Confidential Data Handling & Data Analysis
- Research Analysis & Scientific Documentation
- Healthcare Operations Support & MS Office Suite
- Systems Biology & Microbiology
- Scientific Research & Literature Analysis
- Attention to Detail & Analytical Thinking
- Leadership & Team Collaboration

PROJECTS

Identification of Potential Drug Targets of Gallbladder Cancer - Systems Biology Approach
12/2019 – 05/2020

- Conducted systems biology research to identify key pathways and genes involved in tumor progression

In-silico docking analysis of the active compounds of Murraya koenigii seeds with the modeled protein of unstructured Diabetes genes
07/2019 – 11/2019

- Evaluated interactions between bioactive compounds and diabetes-related proteins.

Biodegradation of Fluorides present in groundwater of Assam
12/2018 – 04/2019

- Investigated biodegradation methods for fluoride removal in Assam's groundwater

Resazurin based viability assay for screening of extracts from plant waste to control the specific pathogens in sewage
01/2018 – 05/2018

- Screened plant extracts for antimicrobial activity using viability assays.
