Projects

Personal Portfolio Website

Technologies Used: HTML, CSS, JavaScript

Developed a personal portfolio website to showcase my profile, skills, education, and projects. Designed a structured layout with sections like Home, About, Skills, and Projects. Implemented responsive design, navigation bar, and interactive buttons using HTML, CSS, and JavaScript. The website also includes a hero section with introduction and downloadable CV option, providing a professional online presence.

EcoMadi – AI-Based Terrace Gardening Platform

Technologies Used: Loveable AI, HTML, CSS, JavaScript

Developed a dynamic website for EcoMadi, a sustainable terrace gardening platform, using Loveable AI. Built multiple pages with user-friendly interface, forms, and responsive design to help users explore organic gardening solutions. Integrated AI-driven features to enhance user experience and simplify the process of finding suitable plants and gardening solutions. The platform focuses on promoting eco-friendly practices and making terrace gardening accessible to everyone.
