PROFESSIONAL SUMMARY

Detail-oriented Mechanical Engineering graduate with 3+ years of professional experience in technical data verification, quality assurance, documentation, process compliance, operational tracking, and workflow support. Proven record of maintaining 99%+ accuracy while performing quality checks, identifying discrepancies, tracking workflows, and meeting strict operational requirements and deadlines. Experienced in Microsoft Excel, Power BI, PO and invoice verification, KPI tracking, technical documentation, and cross-functional coordination. Academic knowledge of Wind and Solar Energy Systems Basics, and PLC Automation Fundamentals, with strong mechanical engineering foundations and the ability to adapt quickly to new technical applications and processes.

CORE SKILLS

Quality & Documentation: Quality Assurance (QA/QC) | Quality Auditing | Data Verification | Technical Documentation | Documentation Review | SOP Compliance Fundamentals
Operations & Coordination: Process Compliance | Workflow Monitoring | Task Follow-up | Issue Resolution | Discrepancy Checking | Cross-Functional Coordination | Problem Solving | Multitasking
Procurement & Reporting: PO Verification | Invoice Verification | KPI Tracking | Operational Reporting | Status Tracking | Data Accuracy
Software / Technical Tools: Microsoft Excel | Power BI | Microsoft Word | PowerPoint | Google Sheets | JIRA | Python | MySQL Basics | GitHub (Basic) - https://ratheeshkannan07.github.io/renewable-career/ | CAD 2D & 3D Fundamentals
Relevant Technical Knowledge: Marine & Mechanical Basic Fundamentals | Fluid Flow Systems Handling & Piping Systems (Pumps & Valves) Fundamentals | Predictive / Planned Maintenance Basic Concepts | Wind Energy Fundamentals | Solar Energy Fundamentals | Wind Turbine Basics | PLC Automation Fundamentals

PROFESSIONAL EXPERIENCE

Senior Data Analyst CV | Objectways Technologies, Karur | September 2022 – October 2025

- Conducted quality checks, data verification, and discrepancy correction across multi-format technical datasets, consistently maintaining 99%+ precision and recall.
- Performed daily quality audits against client specifications, process guidelines, and operational requirements to ensure procedural compliance.
- Prepared daily and weekly KPI, performance, and operational reports using Microsoft Excel, tracking milestones, pending tasks, and deliverables.
- Identified data anomalies and workflow issues and collaborated with cross-functional technical teams to support issue resolution and process improvement.
- Performed PO and invoice verification and reviewed supporting information for accuracy and compliance.
- Maintained structured technical documentation and records with attention to data accuracy and consistency.
- Mentored and reviewed team members on quality benchmarks, SOPs, process requirements, and error-reduction practices.
- Managed multiple workflows under strict deadlines with flexibility across shift schedules.

EDUCATION

B.E – Mechanical Engineering - ACE Karur, Anna University - 2018 - 2022 - CGPA: 7.61 (First Class)

ACADEMIC PROJECTS

- **Electromechanical Rotary Damping and Energy Harvesting System :** Co-designed, developed, and evaluated a functional electromechanical prototype focused on vibration damping, kinetic energy harvesting, structural assessment, and mechanical performance analysis.
- **Natural Composite Materials Fabrication :** Researched and developed environmentally friendly bio-composite materials using Jute, Coir, and Eggshell Powder while conducting material testing, structural evaluation, and quality inspection.
