Objective

Electronics and Communication Engineering student with cross-domain expertise in Software Development, Embedded Systems, IoT, Automation, and Hardware Design. Seeking an entry-level role to apply technical skills to practical solutions.

Technical Skills

Programming Languages	C, Python, JavaScript
Web Development	HTML, CSS
Database	MySQL
Software Tools	GitHub, SQL Workbench, VS Code, MATLAB
Electrical Skills	Embedded Systems, IoT, PCB Design, Microcontrollers
Soft Skills	Problem Solving, Teamwork, Adaptability, Communication

EDUCATION

Bachelor of Engineering | KPR Institute of Engineering and Technology, Coimbatore — 2022 - 2026
Electronics and Communication Engineering, CGPA - 7.79

HSC | METRO Matriculation Higher Secondary School, MTP — 2021 - 2022
Percentage - 81%

SSLC | SRI Vinayaga Vidhyalaya Senior Secondary School, MTP — 2019 - 2020
Percentage - 72.4%

PROJECTS

- **Irrigation System for Precision Farming with Smart Incubator | ESP8266, IoT**
  Developed a smart irrigation & climate-control system using ESP8266 and sensors for automated monitoring.
  Integrated Flutter-based web monitoring to track plant health, growth, and environmental conditions.
- **E-Commerce Food Products Sales Forecasting System | Python, MySQL**
  Enhanced an e-commerce platform for order management, tracking, and sales data processing.
  Analyzed historical sales data to identify trends and generate sales forecasts for data-driven decision-making.
- **Customer Engagement Platform | MERN, JavaScript**
  Build a real-estate customer engagement platform using React.js, Node.js, Express.js, and MongoDB.
  Implemented role-based access, property inquiries, payment tracking, site visits, and customer support.
- **BookNest – Reading & Lifestyle Blog | HTML, CSS**
  Designed a responsive blog website focused on the benefits of reading, book categories, and reading habits.
  Created structured content covering knowledge, vocabulary, critical thinking, and continuous learning.

INTERNSHIP EXPERIENCE

- **Sysslan IT Solutions – Python Development Intern** — ***Sep 2026 – Oct 2026***
  Worked on Python programs involving loops, conditional logic, string manipulation, functions, file I/O, data handling.
  Built practical solutions for file handling, CSV processing, web scraping using BeautifulSoup, and backup scripting.
- **Ruddo Education – Embedded Systems Intern** — ***Sep 2024 – Dec 2024***
  Gained hands-on experience with embedded development tools and microcontroller programming.
  Tested embedded applications using industry-standard software tools and prepared technical documentation.

KEY-COURSES AND CERTIFICATIONS

- NPTEL: Introduction to Industry 4.0, AI Domain: Infosys Springboard Certification.
- Cisco Network Academy: CCNA Modules 1, 2 & 3; Python Essentials 1 & 2
- Cisco Certification: Introduction to Cybersecurity & Introduction to IoT Course
- NASSCOM: Acquiring Data – Fundamentals of AI.
