Dharanish S

STUDENT

I am an Aspiring Electronics and Communication student , eager to leverage technology to tackle real world challenges . My experience spans internships and projects focusing on embedded system and chip design ,completed a strong commitment to continuous learning and professional development.

Tiruchengode, Tamil Nadu, India

SKILLS

python | c | java | SQL | POWER Bi | UI/UX Designer | Digital Marketing

LANGUAGES

English
Full Professional Proficiency

Tamil
Full Professional Proficiency

INTERESTS

- I am interest in problem solving
- I am interest in web developoment
- I am interest in video editing
- I am interest in reading books

EDUCATION

Collage
Jansons Institute of Technology

07/2022 - Present — *Coimbatore*

Electronics Communication Engineering

- Tamil Nadu

School(HSC)
SKV Matriculation Higher Secondary School

06/2018 - 04/2019 — *Tiruchengode*

Computer Science

- TAMIL NADU

School(SSLC)
SKV Matriculation School

06/2016 - 05/2017 — *Tiruchengode*

Courses

- TAMIL NADU

WORK EXPERIENCE

INTERN
VELSON

04/2022 - 05/2022 — *Tiruchengode*

Achievements/Tasks

- Working with analog/digital circuits, breadboarding, or PCB design.
- Programming microcontrollers (e.g., Arduino, STM32, ESP32).

INTERN
EG TECHNOLOGIES

05/2025 - 06/2025 — *Tiruchengode*

Achievements/Tasks

- **Embedded C/C++ Programming** – Writing high-level code for microcontrollers.
  Microcontroller & Processor Knowledge – Working with platforms like STM32, AVR, PIC, ARM Cortex, ESP32

CERTIFICATES

certificate for completed Infosyis Spring Board ,.Certificate for intern completed -- EG Technology, Certificate for intern completed -- VELSON

PERSONAL PROJECTS

Doing a mini project on "Image Processing based Fire Detection "

- Doing a mini project on "Image Processing based Fire Detection " - **Developed a fire detection system** using image processing techniques to identify fire in real-time video or image inputs. Utilized **color-based segmentation** techniques to detect fire-like regions based on RGB or HSV color models.
