BHOJU ASWIN S A

Nagercoil, Tamil Nadu | +919384969757 | bhojuaswin@gmail.com | https://www.linkedin.com/in/bhoju-aswin-sa-722589361

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a strong foundation in Java, object-oriented programming, SQL, REST APIs, and AWS cloud fundamentals. Hands-on experience through trainee work and projects in application development, database handling, Docker, Linux, Git, and deployment workflows. Experienced in building web applications and deploying Java-based applications in Linux environments. Seeking a fresher Java Developer / Software Engineer opportunity to strengthen backend development skills and contribute tocloud-based software solutions.

TECHNICAL SKILLS

Programming: Java, JavaScript, SQL

Frontend: React.js, JavaScript, HTML, CSS, Bootstrap, Material UI, Redux

Backend: SQL, Node.js, Express.js, RESTful APIs, Authentication & Authorization

AWS & Cloud: Amazon EC2, Amazon S3, Amazon VPC, Amazon CloudWatch, Amazon ECR, AWS IAM

Tools: Git, GitHub, Docker, Jenkins, Ansible, Linux, FileZilla FTP

Concepts: OOP, Problem Solving, Version Control, Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Trainee – Frontend & DevOps | TechNeat Info Solutions | September 2025 – January 2026

- Completed hands-on training in Frontend Development andDevOps, building practical skillsthrough real-world projects.
- Developed responsive web applications using React.js, HTML, CSS, JavaScript, and integrated REST APIs.
- Containerized and deployed applications locally using Docker and Dockerfiles, gaining practical experience in deployment workflows.
- Worked in Linux environments and used Git and GitHub for version control, collaboration, and source code management.
- Gained practical exposure to DevOps fundamentals, including containerization, application deployment, and software development workflows while following software development best practices.

PROJECT EXPERIENCE

Dockerized Application Deployment | Java, Docker, Linux, Nginx, VMware

- ContainerizedJavaapplicationmodulesusing custom Dockerfiles, executableJAR files, Docker CLI tools, and HTTP Server/Nginx.
- Transferred applications between Windows and Linux environments using FileZilla FTP and managed the application deployment lifecycle.
- Performed deployment testing, troubleshooting, configuration management, Linux administration, and networking activities.

DevOps Capstone Project | Jenkins, Ansible, Git, Docker, Linux, CI/CD

- Configuredan automatedCI/CD pipelineusingJenkins,Git, Docker, Linux,and Ansible for application delivery.
- Implemented Git master/develop branching, Jenkins commit triggers, and automated Build, Test, and Production stages.
- Applied Docker containerization and Ansible configuration management across a Jenkins Master-Slave architecture on Linux servers.

RBAC Dashboard Application | Angular, Node.js, Express.js, TypeScript, JWT

- Engineered arole-based dashboard withdynamicauthorization forAdmin andGeneral Users.
- Developed RESTful APIs with data validation, HTTP services, routing, authentication, and authorization.
- Applied testing, debugging, troubleshooting, structured data handling, and component-based architecture.

React E-Commerce Application | React.js, Redux, REST APIs

- Developed aresponsivee-commerceapplication using React.js and Redux for centralized state management.
- Integrated REST APIs and implemented product browsing, Add to Cart, quantity updates, and dynamic cart management.
- Applied reusable components, structured data handling, responsive UI design, testing, and debugging.

Gaming UI Application | React.js, React Router, JavaScript, Custom CSS

- Designed a responsive gaming interface usingReact.js,React Router,andcomponent-based layouts.
- Created reusable Navbar, Footer, Product Card, and page-section components.
- Developed responsive product showcase pages using custom CSS, structured content, banners, logos, and images.

INTERNSHIP EXPERIENCE

Shiro Software Solution | Machine Learning Intern | July 2023

- Builtpreprocessing data pipelines,exploredfoundationalAI/ML workflows and evaluated AI tools for practical applications.
- Gained exposure to data preprocessing, technical analysis, and application workflow understanding.

Deloitte | Data Analytics Job Simulation (Forage) | February 2025

- Workedon structureddata analysisandbusiness problem-solving tasks.
- Improved analytical thinking and debugging skills through real-time scenarios.

NSIC Technical Services Centre | Cyber Security Intern | July 2023

- Studied cybersecurity fundamentals,systemprotectionand securedevelopment concepts.
- Gained understanding of infrastructure security and threat awareness.

EDUCATION

B.E.inComputerScienceand Engineering | Amrita College of Engineering and Technology (2020 – 2024) | Aggregate: 79.3%

CERTIFICATIONS

- AWS DevOps – Intellipaat (2024–2025)
- Linux Automation Deployment – Red Hat
- Data Analytics Simulation Certificate – Deloitte
