BOOPALAN G

Bengaluru, Karnataka

+91 7550317305 - boopalanboopalan5231@gmail.com - www.linkedin.com/in/boopalan07 - github.com/Boopalan007

PROFESSIONAL SUMMARY

- Aspiring Software Engineer with proficiency in Python, Object-Oriented Programming (OOP), software development, and software design principles.
- Hands-on experience building backend applications, REST APIs, and database-driven solutions using Django and Oracle SQL.
- Skilled in debugging, troubleshooting, Git/GitHub, version control, and developing clean, maintainable, and efficient code.
- Strong knowledge of problem-solving, , database management, and collaborative software development practices and eager to contribute to Agile software development and deliver scalable software solutions.

TECHNICAL SKILLS

- **Programming Languages :** Python, JavaScript
- **Technologies & Frameworks :** HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Django
- **Software Development :** Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Design Principles, REST APIs, JSON, Problem Solving, Debugging & Troubleshooting
- **Database :** Oracle SQL, MongoDB
- **Version Control :** Git, GitHub
- **Tools :** VS Code, Postman

PROJECTS

AI Traffic Management System | Project Source Code

- Developed a **Python-based backend system** for real-time traffic monitoring and analysis.
- Applied **Object-Oriented Programming (OOP)** principles to build reusable software components.
- Optimized traffic flow using greedy algorithms, reducing waiting time by **15–20%**
- Developed **REST APIs** for real-time traffic data processing and communication.

AI-Based Wild Animal Detection System | Project Source Code

- Developed a Python application for real-time wild animal detection using computer vision.
- Implemented machine learning models for image recognition.
- Tested and debugged application modules to ensure reliable performance.

Personal Portfolio Website | Portfolio Link

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and achievements.
- Built an interactive user interface using **React.js** and **Tailwind CSS** with smooth navigation and modern design.
- Deployed the portfolio online and integrated links to GitHub, LinkedIn, and project repositories.

EDUCATION

B.Tech – Artificial Intelligence and Data Science **Oct 2022 - April 2026**
Sengunthar Engineering College (**CGPA: 8.13**)

B.E – ECE with Minor in Iot & its applications **Oct 2024 - April 2026**
Sengunthar Engineering college (**CGPA : 8.4**)

EXPERIENCE

Python Intern | Ruddo Education Solutions Pvt. Ltd. **July 2024 - Oct 2024**

- Developed Python-based automation solutions, improving data processing efficiency.
- Debugged and optimized code to improve application performance.

Full Stack Development Intern | Ruddo Education Solutions Pvt. Ltd. **Oct 2024 - Nov 2024**

- Developed web applications using front-end, back-end, and database technologies.
- Implemented **CRUD** operations for data management.

Python Full Stack Development Trainee | QSpiders **Feb 2026 - Sep 2026**

- Completed hands-on training in Python, Object-Oriented Programming, Django, Oracle SQL, HTML, CSS, JavaScript, and Git.
- Built Python-based applications using software development best practices and Git/GitHub for version control.

CERTIFICATIONS

- Python Programming & Full Stack Development – Ruddo Education
- AI-ML Virtual Internship – EduSkills
- Web Development & AI Tools Training – Alpha Tech Academy

LANGUAGES

- English (Read, Write, Speak)
- Tamil (Read, Write, Speak)
